Routine Weather Briefing

October 11, 2024
9:00 AM

Outlook Period: Friday 10/11/24 - Monday 10/14/24

OVERVIEW:

Gusty northerly winds will diminish as the remnants of Milton move farther out to sea and high pressure migrates nearly overhead. Warming is expected this weekend ahead of a strong cold front moving through late Monday. No rainfall is expected this holiday weekend.

HAZARDS & IMPACTS	**COASTAL FLOODING:** Minor coastal flooding along the lower Cape Fear River should occur during afternoon high tides through the weekend. (See NWPS for details) **SURF ZONE:** A moderate to high risk of rip currents for east-facing beaches today should diminish into the weekend, but may increase again by the end of the weekend. (See beach page for details) **RIVER FLOODING:** None
ADDITIONAL INFORMATION	Refer to weather.gov/ilm for the latest conditions/forecasts. Refer to weather.gov/erh/ghwo?wfo=ilm for the graphical hazards outlook.
