Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

NORTH DAKOTA, Central and West

(ND-Z013) PIERCE, (ND-Z023) WELLS, (ND-Z025) FOSTER, (ND-Z037) STUTSMAN

01/10/18 17:00 CST	0	Heavy Snow
01/11/18 05:00 CST	0	

An upper level trough approached the Northern Plains on January 10 producing widespread snow across North Dakota. Along with the snow, gusty winds developed in the wake of a cold front. The greatest impacts from snow and blowing snow were noted over the upper James River Valley into the Devils Lake Basin where around six inches of snow fell and gusty winds lingered into the early morning hours of January 11.
