

Introduction of the Mobile Operations Weather Unit (MOWU)

Todd Lindley

&

Chris Morris

National Weather Service Amarillo, TX

Inspiration

- * To better serve our core partners on-site before, during, and after severe weather, weather-sensitive activities and major incidents
- * WFO New Orleans pioneered the idea
 - * Converted FEMA Trailer into Severe Weather Emergency Response Vehicle (SWERV)
 - * *Provides “focused coordination” at any Incident Command Center where all incident responders are hearing and seeing the information being presented at one time in one location via personal interaction*
 - * Provide on-site customized forecasts variables

SWERV Deployments

- * River Flooding Scenarios and other training exercises
- * Deployed for Hurricane Isaac
- * Large Festival and other Large Public Gatherings
 - NCAA Final Four
 - Navy Week – Air Show
 - Mardi Gras

Implementation

- * We will customize to fit our core partners needs
- * How we plan to use the MOWU:
 - * Tri-State Fair
 - * Hot Air Balloon Festivals
 - * Community Outreach
 - * HAZMAT Exercises and Incidents
 - * Wildfire Support
 - * Post-Disaster Support
 - * Search-and-Rescue Support
 - * *As requested by decision makers and first responders*

How Do You Get a Trailer for Free?

- * Talked with New Orleans and Collected Contacts
- * GSAXcess
 - * Website that maintains records of all Federal Excess and Surplus Personal Property Reported to General Services Administration (GSA)
 - * Account Required for Acquisition Requests
