The Kim Flowers Power Line wildfire began approximately 2022 CST about fourteen miles north northwest of Miami in north central Roberts County...or just east of Farm Market Road 283 southeast of the intersection with Texas Highway 70. Approximately four hundred and ten acres were burned. Although no structural damage and no injuries were reported...one home was saved. The cause of the wildfire was determined to be from power lines. A total of eight fire departments responded to the wildfire which was contained by 2400 CST.
