

Hackleburg/Phil Campbell EF-5

WAFF's RADAR in eastern Limestone county took a direct hit. Recognizable pieces of the dome could not be found. A new RADAR was operating by October 2011.

Tuscaloosa EF-4

Heavily damaged businesses along 15th St E. in Tuscaloosa have reopened. One destroyed business (far right in images) continues to rebuild.

Lake Martin EF-4

Mt Hebron East Baptist Church near Eclectic was wiped clean from it's foundation, but has since been rebuilt.

This Moderate-resolution Imaging Spectroradiometer (MODIS) Channel 1 difference image, provided by the NASA SPoRT group in Huntsville, Alabama, shows the most destructive tornadoes' paths from the historic tornado outbreak.
