

2015 Hurricane Preparedness Workshop

Hurricanes and tropical storms have the potential to cause flooding, wind damage, and power outages in coastal New England each summer. Speakers from the National Weather Service, the American Red Cross, federal and state emergency authorities, and local utility managers will discuss how tropical weather has impacted our area in the past and what you can do to be best prepared for a future storm. See you there!

July 27, 2015, 7-9 PM

Marine Museum at Fall River
70 Water Street
Fall River, MA 02721

Free and Open to the Public

Presentations From:

National Weather Service-Taunton, MA
FEMA Region I
