

2015 Hurricane Preparedness Workshop

Hurricanes and tropical storms have the potential to cause flooding, wind damage, and power outages in coastal New England each summer. Speakers from the National Weather Service, the American Red Cross, federal and state emergency authorities, and local utility managers will discuss how tropical weather has impacted our area in the past and what you can do to be best prepared for a future storm. See you there! ***(Please note that the venue has a seating capacity of 150 . Register using the link below to ensure that you have a spot at the event!)***

July 20, 2015, 7-9 PM

Salve Regina University: **Ochre Court**
