Public Information Statement

National Weather Service Charleston SC

947 AM EST Mon Nov 30 2020

...THE GROWING SEASON COMES TO AN END ACROSS SOUTHEAST SOUTH  
CAROLINA AND SOUTHEAST GEORGIA...

Climatology indicates most areas across Southeast South Carolina  
and nearby parts of Southeast Georgia north of the Altamaha River  
experience freezing conditions by December 1. Thus, the National  
Weather Service in Charleston has discontinued Frost Advisories  
and Freeze Watches/Warnings until March 1st of next year.
