

National Weather Service in Gray, Maine Seeks Students for Summer Volunteer Internship

Disclaimer: Student volunteer internship positions are contingent on the operating status of the government with changes to the availability of these positions possible.

Description: The National Weather Service in Gray, Maine seeks motivated students that desire to learn more about the operations in a local weather service office. In this internship, students will learn many aspects of the day-to-day operations of the office, including warning operations and forecast creation. In addition, students will have the opportunity to participate in office research and outreach. This will give students the opportunity to determine whether a career with the National Weather Service may be right for them.

Length of Internship: Averages two to three days per week (~10-20 hours) starting in the second half of May and continuing through early August. This is an *unpaid* internship.

Eligibility: *At least* a half-time student pursuing an undergraduate or graduate degree in meteorology or atmospheric science that has (by this summer) *completed their sophomore or junior year*.

What we need from you: A *cover letter* stating your interest in the internship and why we should select you. In addition, please send your *resume* that includes the coursework you have completed and any related experience. Finally, please include a copy of your most recent *transcript*. Unofficial transcripts are acceptable.

Deadline: Friday February 21st, 2020

How you will be chosen: Applicants will be selected based on a combination of coursework, references, resume, cover letter and a potential phone interview.
