## Storm Data and Unusual Weather Phenomena

November 2000

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons Killed	Number of Persons Injured	Estimated Damage Property	Estimated Damage Crops	Character of Storm
----------	------	----------------------------	---------------------------	--------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------	--------------------

### TEXAS, Central Southeast

#### Walker County

Countywide	03 04	2200CST 0800CST			0	0	500K		Flash Flood
------------	----------	--------------------	--	--	---	---	------	--	-------------

FM 2989 closed. I-45 feeder road flooded at Bedias Creek. Major street flooding in Huntsville. Subdivisions flooded in Riverside area. Voluntary evacuations at the Harmon Creek Marina.

#### Trinity County

Countywide	03 04	2320CST 0800CST			0	0	25K		Flash Flood
------------	----------	--------------------	--	--	---	---	-----	--	-------------

Minor flooding across county.

#### Madison County

Countywide	04	0100CST 0800CST			0	0	25K		Flash Flood
------------	----	--------------------	--	--	---	---	-----	--	-------------

Several county roads closed due to flooding.

#### Grimes County

Countywide	04	0135CST 0800CST			0	0	50K		Flash Flood
------------	----	--------------------	--	--	---	---	-----	--	-------------

FM 1774 closed south of FM 245. SH 105 closed near CR 309. Numerous other county roads closed due to flooding.

#### Walker County

Countywide	04	0830CST 1500CST			0	0	50K		Flash Flood
------------	----	--------------------	--	--	---	---	-----	--	-------------

Numerous roads underwater throughout county. SH 30 closed at FM 2550. FM 2989 closed between I-45 and Hwy. 247. FM 3478 closed at Nelson Creek. FM 1791 closed between I-45 and Hwy. 247. San Jacinto River overbanks at SH 30. Several feeder roads flooded on I-45. Storm total of 9.29 inches of rain 1 mile north of Huntsville.

A stationary front draped across southeast Texas provided the focus for very heavy rainfall and flooding across the northern part of southeast Texas from the evening of the 2nd through the morning of the 4th. Rainfall totals of 7 to 10 inches were common. The heaviest rainfall and most severe flooding occurred in the Bryan and Kurten areas in Brazos County. The heavy rains busted severe drought conditions that had plagued the area for months.

#### Austin County

Countywide	05	2215CST 2230CST			0	0	100K		Thunderstorm Wind
------------	----	--------------------	--	--	---	---	------	--	-------------------

Roof damage in Buckhorn area of Bellville. Numerous trees down across county.
