LICKING COUNTY --- 2.0 SE OUTVILLE [39.98, -82.57], 1.5 WNW BUCKEYE VLY ARPT [39.98, -82.55]

	04/04/11 14:46 EST		60K	Tornado (EF0, L: 0.90 mi , W: 50 yd)
	04/04/11 14:47 EST		0	Source: NWS Storm Survey

The tornado touched down in two locations within a mile. At the first location the damage included the removal of part of a roof of a larger metal sized garage. In addition, a supporting post was snapped, one side of the building was blown inward, and metal doors on the opposite side were blown outward. There was also a smaller garage with major damage to a metal door. About four to five large trees were uprooted in this area as well. The circulation was not on the ground for the entire path. At the second location where damage occurred, the tornado removed a large section of metal and wood roofing from a large barn. The debris was spread up to one-quarter of a mile downwind from the barn. In addition, there were three to four pieces of the barn debris impaled in the ground. A door was removed from a smaller storage shed and some damage occurred to one corner of a house where part of the roof was lifted up. The damage at these locations indicated wind speeds ranged from 75 to 80 miles per hour.

LICKING COUNTY --- 6.0 WSW HEATH [39.99, -82.55]

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>At the beginning of the path near Lake Street in Celina, substantial roof and chimney damage was observed and very large trees were uprooted and snapped. Further to the northeast along Havemann Road, damage occurred to a home improvement warehouse, where as much as twenty percent of the roof structure was uplifted and the HVAC units were moved. In addition, lumber impaled roofing material and damage occurred to indoor inventory. Also at this location, wooden fence walls were down and snapped at the base of their four by four fence posts. Nearby, numerous power poles were snapped and metal light posts were down. On the northwest corner of Havemann and Route 29, a large brick free standing grocery building suffered major damage, including nearly all of the roof being lifted off and one of the brick walls collapsing. Further to the northeast along the path, substantial damage occurred to a home along Staeger Road. The entire attached garage was destroyed with nearly a third of the roofing on the home gone. The siding on the second story of the home had been impaled by a two by four section of lumber. A small sport utility vehicle parked in the rear of the home was toppled and a twenty-five foot mobile home was moved nearly thirty yards. A forty by fifty foot steel framed outbuilding was completely demolished. A pontoon boat which was within this outbuilding was also moved at least fifteen yards. Additional damage further to the northeast in Mercer County occurred along Riley Road between Oldtown and Howick Roads. One wooden and one steel barn were destroyed. An additional steel frame building suffered door damage and damage to part of the roof and a wall. Estimated maximum wind speeds based on damage is 115 miles per hour.</p>				
<hr/>				
AUGLAIZE COUNTY --- 3.3 NW VILLA NOVA [40.59, -84.46], 3.3 SW KOSSUTH [40.61, -84.39]

Damage was first observed at the western end of London-Lancaster Road, just east of Rickenbacker Air Force Base. A large portion of the roof of a single family residence was removed. Damage was also observed on Pontius Road where one power pole was snapped at the base and several others were bent over. A large storage shed constructed of wood frame with metal sheeting was destroyed. At the end of the path, roof damage was observed with a Richardson Road residence. A large number of trees were also uprooted and broken along this path. The estimated maximum wind speed based on damage is around 109 miles per hour.

	04/20/11 01:27 EST		0	Source: NWS Storm Survey
Twelve greenhouses constructed of metal poles overlaid with a plastic material were damaged to various degrees. The greenhouse farthest west was hit first by the circulation and was almost completely destroyed. Many of the plants inside the greenhouses were low to the ground and therefore sustained very little damage. A metal door on a small warehouse attached to the greenhouses was bent. Balled and bur-lapped trees were pulled toward the center of the path. Additional damage at this location included plant transport carts pulled from a loading dock into a small pond. A small metal storage shed toward the end of the observed path was also heavily distorted. Trees west of the damage path and a house immediately east of the path were not damaged. Estimated maximum wind speed based on damage is around 83 miles per hour.				
BROWN COUNTY --- 1.0 S FAYETTEVILLE [39.17, -83.92]

The tornado touched down east of Baltimore along Canal Road. Damage to a home was done at this location and a garage was destroyed. In addition windows were also blown out at this location. Numerous large trees were snapped and uprooted in the area. Additional damage was found along Millersport Road where a barn was damaged. Estimated maximum wind speed based on damage is around 100 miles per hour.				
LICKING COUNTY --- 0.3 NW NEWARK HEATH ARPT [40.02, -82.47], 2.5 S NEWARK [40.03, -82.40]				
	04/20/11 01:42 EST		45K	Tornado (EF2, L: 3.85 mi , W: 100 yd)
	04/20/11 01:45 EST		0	Source: NWS Storm Survey
A broken damage path was observed from just west of heath near the Newark-Heath Airport to State Route 13 east of Heath. Trees were snapped off between two and fifteen feet above the ground just west of the airport. A store just east-northeast of the airport had a section of the sign on the front of the store removed. A small business had its metal roof partially peeled away. Further along the path, a masonry building was damaged substantially with one wall completely collapsed along with half of another. Several large trees were uprooted or snapped along the path. Some of the trees pulled up a large amount of rock in which they were previously embedded. Maximum wind speed based on damage is around 120 miles per hour.
