02/01/11 00:00 EST	0	Winter Weather
02/01/11 14:00 EST	0	

An ice storm hit the Ohio Valley, beginning late in the evening of January 31st. Low pressure traced from Texas to the lower Great Lakes region, and strengthened as it crossed the Ohio Valley. The precipitation over northern portions of the region began as a snow and sleet mix and changed over to freezing rain, while along and immediately south of the I-70 corridor was all freezing rain. An estimated quarter million power outages were blamed on the storm which brought upwards of a half inch to inch of ice, along with several inches of sleet accumulation to central and west central Ohio and the Whitewater Valley of Indiana.

UNION COUNTY --- LIBERTY [39.63, -84.93]

02/28/11 04:10 EST	2K	Thunderstorm Wind (EG 50 kt)
02/28/11 04:14 EST	0	Source: Law Enforcement

Trees were reported down due to damaging thunderstorm winds.

RIPLEY COUNTY --- 3.0 S MILAN [39.08, -85.13]

02/28/11 04:45 EST	4K	Thunderstorm Wind (EG 50 kt)
02/28/11 04:49 EST	0	Source: Public

Numerous shingles were torn off of a roof due to damaging thunderstorm winds.

WAYNE COUNTY --- RICHMOND [39.83, -84.90], 1.5 NNW EAST RICHMOND ARPT [39.84, -84.85], 0.7 WSW EAST RICHMOND ARPT [39.82, -84.84], 1.5 SSE RICHMOND [39.81, -84.89]

02/28/11 07:35 EST	5K	Flood (due to Heavy Rain / Snow Melt)
02/28/11 13:00 EST	0	Source: Department of Highways

Numerous roads were closed due to high water.

A line of severe storms moved through during the morning hours of February 28th. The main threats were damaging winds and flash flooding, however one tornado also occurred with this event.

An ice storm hit the Ohio Valley, beginning late in the evening of January 31st. Low pressure traced from Texas to the lower Great Lakes region, and strengthened as it crossed the Ohio Valley. The precipitation over northern portions of the region began as a snow and sleet mix and changed over to freezing rain, while along and immediately south of the I-70 corridor was all freezing rain. An estimated quarter million power outages were blamed on the storm which brought upwards of a half inch to inch of ice, along with several inches of sleet accumulation to central and west central Ohio and the Whitewater Valley of Indiana. Warmer temperatures southeast of the I-71 corridor led to little if any freezing precipitation. Overnight, ice melted east of I-75 as temperatures in the warm sector ahead of the cold front rose well into the 40s and reached 50 degrees in some locations.

02/25/11 12:00 EST	0	

A strong area of low pressure tracked along the Ohio River on Thursday, February 24th and brought widespread heavy rain to the Ohio Valley. As the low crossed the area, cold air was pulled into the area from the northwest and rain changed to snow north of metropolitan Dayton. Significant accumulations of 5 to 6 inches occurred in the predawn hours of Friday the 25th.

SHELBY COUNTY --- 2.0 S BOTKINS [40.44, -84.18], 1.7 NW ANNA [40.42, -84.19], 1.8 NNE ANNA [40.42, -84.15], 2.5 SE BOTKINS [40.44, -84.15]

02/28/11 02:15 EST	5K	Flood (due to Heavy Rain / Snow Melt)
02/28/11 23:59 EST	0	Source: Trained Spotter

Roads were covered with water due to heavy rainfall in the area and previous snow melt. Flooding began around 0215 EST on February 28th and ended around 0900 EST on March 2nd. Damage estimates from March were around five-thousand dollars.

AUGLAIZE COUNTY --- ST MARYS [40.53, -84.38], 0.3 ESE VILLA NOVA [40.55, -84.42], 1.7 ENE VILLA NOVA [40.56, -84.39], 1.8 NNE ST MARYS [40.55, -84.36]

02/28/11 03:22 EST	10K	Flood (due to Heavy Rain / Snow Melt)

Storm Data and Unusual Weather Phenomena - February 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
The tornado touched down south of Millersport near the intersection of Millersport Road and Canal Road where tree damage was observed. The tornado then continued to the east and directly hit a farm on the north side of Canal Road. At this location, metal grain bins were tossed and rolled and trees were uprooted. A masonry wall was also flattened and numerous objects were impaled into the ground as well. A newly constructed barn had the roof removed and numerous pieces of sheet metal were strewn into adjoining fields. The tornado then continued on and hit two residences on Lake Road. A modular home had the roof completely removed and tossed and trees were uprooted. A barn was completely destroyed in the area as well. At another residence, one of the exterior walls was buckled from the wind blowing the door of the home open. Corn debris from a nearby field was driven into the ground. A stick was found driven into the siding on the front of the home.				

BROWN COUNTY --- HAMERSVILLE [38.92, -83.98]
