

August 2025 Climate Summary

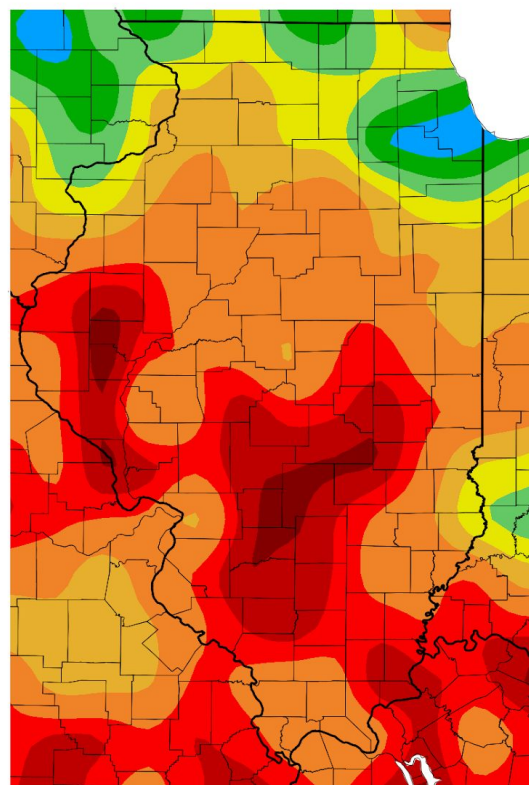

September 1, 2025

7:29 AM

August Precipitation Highlights

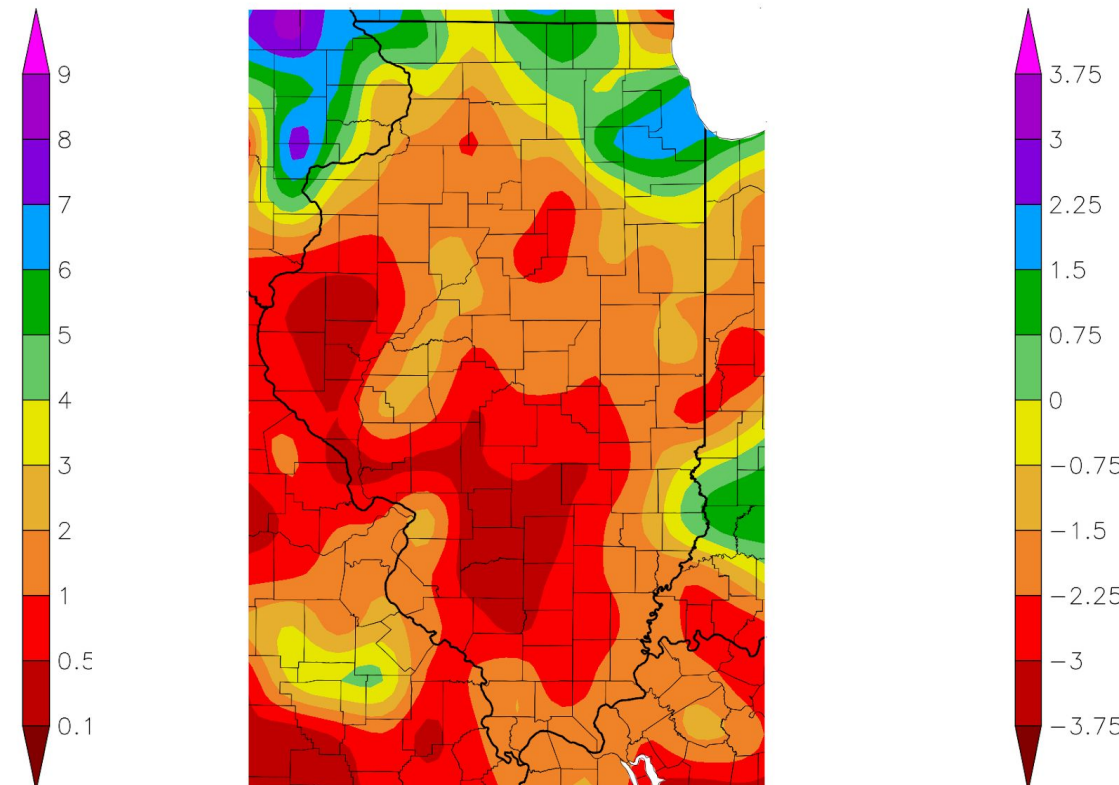

- August 2025 was on the dry side with most locations seeing 1-3 inches below normal rainfall. At Springfield, it was the 2nd driest August on record (0.16") dating back to 1878.
- Precipitation patterns were most active during the middle of August. Lincoln set a daily record rainfall of 1.88 inches on August 12th.
- Severe weather was rather limited in central and southeast IL during August. The strongest storms occurred between August 15-20th with mostly minor damage to crops, trees, and structures.
