

# Winter Weather Preparedness

## Watch, Warning, Advisory

- **Winter Storm Watch: Be Prepared!**

Conditions are favorable for dangerous winter weather. It does **not** mean the weather will occur, but it is possible. Make preparations as soon as you can.

- **Winter Storm Warning: Take Action!**

A winter storm is imminent or occurring. If you hear a warning, immediately go home or shelter in place until it is safe to travel again. If you are home, bring in pets and plan to stay inside at least until the storm passes.

- **Winter Weather Advisory: Use Caution!**

Winter weather conditions are expected to cause significant inconveniences and may be hazardous, especially for motorists. When caution is used, these situations should not be life threatening.
