Impact focus shifting to major river flooding over the next few days.

- Many of main stem rivers are will be in major then moderate flood stage over the next 2 to 3 days (Santa Fe, New River, Alligator Creek, St Mary’s) due to rainfall.
- Black Creek and others expecting to reach record level.
- St. Johns – Tidal issues for the next week
- Oceanside – one or two more tidal cycles then waning markedly
Coastal Flood Advisories and Coastal Flood Warning has replaced Surge flooding due to Irma for tidal waterways and beaches.

High surf and high risk of rip currents at area beaches.
