

January 22-23, 2016 Snowfall and Record Report
Updated 1100 AM 01/27/2016
NWS Jackson, KY

The following table lists the storm total snowfall amounts reported to NWS Jackson, KY for each of the 33 counties in our forecast and warning area for the January 22-23, 2016 Winter Storm. The time of the observation is also included. Please note that this report only lists the reports we received and may not be representative of the final amounts in each county.

Also listed by each county is the 2-day snowfall record for that county based on historical observing stations either located in that county, or in nearby counties in instances where no reliable station data exists in that county.

Please see <http://www.weather.gov/jkl/winterstorm2016summary> for snowfall maps and other information related to this winter storm.
