

Missouri Winter Weather Awareness Day

November 15, 2017

The National Weather Service (NWS) along with the Missouri [Department of Public Safety](#) (DPS), the [Missouri State Emergency Management Agency](#) (SEMA), the [Department of Health and Senior Services](#) (DHSS), the [Missouri Highway Patrol](#) (MHP), and the [State Fire Marshal](#), has designated November 15, 2017 as Missouri Winter Weather Awareness Day. Winter storms and cold temperatures can be extremely dangerous. We urge people to use this day to review the hazards and safety rules of winter weather so they are prepared for the upcoming winter season.

We cannot stop winter storms and extreme cold, but we can save lives by being prepared. The NWS will transmit winter weather safety information on the NOAA Weather Wire Service and over NOAA Weather Radio during this day and during the week. DPS and SEMA will also distribute information about winter weather safety across the state.

Contact your local NWS office for interviews or additional information.
