An automated observation in St. Inigoes measured a wind gust of 50 knots.

CHESAPEAKE BAY POOLES IS TO SANDY PT MD COUNTY --- MILLERS ISLAND [39.25, -76.37]

03/05/08 01:21 EST	0	Marine Thunderstorm Wind (MG 56 kt)
03/05/08 01:21 EST	0	Source: Mesonet

An automated observation in Hart/Millers Island measured a wind gust of 56 knots.

An area of low pressure moving over West Virginia pushed a strong cold front through the region during the early morning hours of March 5th. This front triggered several strong to severe thunderstorms with gusty winds in excess of 50 knots. Numerous locations reported sustained wind speeds and gusts in excess of 35 knots, but a gale Warning was in effect for the overnight hours.

03/08/08 14:36 EST	0	Source: Buoy

The buoy at Solomons Island measured wind gusts of 38 to 42 knots.

TIDAL POTOMAC COBB IS MD TO SMITH PT VA COUNTY --- 0.4 SE LEWISSETTA [37.99, -76.47]

03/08/08 14:48 EST	0	Marine Thunderstorm Wind (MG 34 kt)
03/08/08 14:54 EST	0	Source: Buoy

The buoy at Lewisetta measured wind gusts up to 34 knots.

TIDAL POTOMAC KEY BRIDGE TO INDIAN HD MD COUNTY --- 0.2 NE RONALD REAGAN NATL ARPT [38.85, -77.04]

03/08/08 16:21 EST	0	Marine Thunderstorm Wind (MG 52 kt)
03/08/08 16:21 EST	0	Source: ASOS

The ASOS at Reagan National Airport measured a wind gust of 52 knots.

Low pressure crossed the Mid Atlantic March 8th, bringing a strong cold front across the Tidal Potomac River and Maryland Chesapeake Bay through the region during evening. This front triggered several strong to severe thunderstorms that produced large hail and gusty, damaging winds and northern Virginia and lower southern Maryland. Several wind gusts in excess of 30 were reported over the waters.

DISTRICT OF COLUMBIA

Storm Data and Unusual Weather Phenomena - March 2008

Storm Data and Unusual Weather Phenomena - March 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>Harford County Emergency Management reported over a dozen trees and power lines down across the county. Reports began in Joppa and spread northeast.</p>				
<hr/>				
ANNE ARUNDEL COUNTY --- 1.1 W GLEN BURNIE PARK [39.15, -76.65]	03/05/08 01:19 EST		0	Thunderstorm Wind (MG 50 kt)
	03/05/08 01:19 EST		0	Source: Mesonet
<p>A Maryland Department of Transportation automated observation measured a wind gust of 58 mph in Glen Burnie at the intersection of Interstate 97 and Route 100.</p> <p>An area of low pressure moving over West Virginia pushed a strong cold front through the region during the early morning hours of March 5th. This front triggered several strong to severe thunderstorms with gusty winds as well as heavy rain. Several lines of thunderstorms crossed the region from the evening of March 4th through the early morning of March 5th. Heavy rain lead to several road closures due to flooding and several flooded basements. Wind gusts in excess of 50 mph were measured at several locations, with a maximum wind gust of 73 mph measured in White Plains, MD. There were numerous reports of trees and power lines down across northern and central Maryland. The most significant wind damage occurred in St. Mary's County, with numerous trees and power lines downed and several homes destroyed. Storm surveys in St. Marys County were conducted by NWS and St. Marys Country Emergency Management.</p>				
<hr/>				
FREDERICK COUNTY --- 1.6 WSW FOUNTAIN MILLS [39.32, -77.28]	03/08/08 15:02 EST		0	Thunderstorm Wind (MG 51 kt)
