Numerous trees and power lines downed in northeast Harford County.

Harford County

.5 NE Churchville to 1 NE Churchville	14	1855EST 1859EST	1.5	75	0	0	1K		Tornado (F0)
--	-----------	----------------------------	------------	-----------	----------	----------	-----------	--	---------------------

A weak tornado touched down just northeast of Churchville, near the entrance of the Rolling Green Subdivision. The tornado tracked east. It uprooted and topped a few trees before lifting one mile east of Glenville Road. Peak winds were estimated at 60 mph

Harford County

Jarrettsville	14	1915EST 2215EST			0	0			Flash Flood
----------------------	-----------	----------------------------	--	--	----------	----------	--	--	--------------------

Several bridges washed out in Northern Harford County, and many streams were out of their banks

A strong cluster of thunderstorms moved across Northeast Maryland on the evening of the 14th. The storms downed trees and power lines, spawned a couple of weak tornadoes, and produced some very heavy rainfall. The downed trees and power lines lead to power outages for over 5000 customers. Storm surveys by NWS personnel confirmed two weak tornadoes, one in Frederick County and another in Harford County. The damage was confined uprooted and topped trees. Flash flooding was also an issue with these storms. The Department of Natural Resources State Forestry and Park service reported problems in Cunningham Falls State Park, Frederick County. Four to five inches of rain caused ditches to overflow, the Park's lakes to fill with debris, and the bridge on Catoctin Hollow Road to washout. Rocks State Park, Harford County, also reported water damage. Roads in Darlington, Pylesville, Norrisville, and Whiteford were closed due to water covering the roadways. Water rescues saved the lives of a 7 year old Frederick County and a Harford County couple. The child fell into a creek and was swept through a gully and drain pipe before the Fire and Rescue team saved him. The couple's jeep was stranded in high water and they had to be lifted out.

Washington County

Hagerstown	15	1535EST			0	0	2K		Thunderstorm Wind (EG60)
-------------------	-----------	----------------	--	--	----------	----------	-----------	--	---------------------------------

Trees down.

Brandywine	17	1930EST			0	0			Lightning
-------------------	----	---------	--	--	---	---	--	--	------------------

Lightning caused a house fire in Brandywine. Damage amount is unknown.

St. Mary'S County

Leonardtown	17	1932EST			0	0	15K		Lightning
--------------------	----	---------	--	--	---	---	-----	--	------------------

Lightning ignited a fire in a shed near Leonardtown.

Thunderstorms accompanied by strong winds and heavy rainfall affected the Mid Atlantic region during the evening of the 17th. Reports of downed trees, a weak tornado, lightning strikes, and torrential rainfall came from Northeast and Lower Southern Maryland. A weak tornado touched down just outside of LaPlata in Charles County. Many homes and structures were damaged by fire and water. Firemen reported several fires caused by lightning in St. Mary's and Prince Georges Counties. Emergency personnel also reported the ceiling of a restaurant in Inversion Mall in Hill Crest Heights collapsed under the weight of rain water, and flash flooding necessitated a water rescue on the Suitland Parkway.

Calvert County

2 S Dunkirk	25	1530EST 1730EST			0	0			Flash Flood
