Given all of the rain, flooding was almost non-existent locally. That changed on the 15th. The front had lifted a bit to the north by this time, and was draped across central Arkansas. Before dawn, a large cluster of thunderstorms hit areas along and north of the Arkansas River, mainly north and west of Little Rock (Pulaski County). At least two dozen reporting sites registered four inches of rain or more.

By 700 am CDT, a whopping 7.20 inches was reported at Damascus (Van Buren County)! That is two months of rain in just a few hours. Elsewhere, an impressive 5.95 inches of rain poured on Center Ridge (Conway County), with 4.90 inches at Ozark (Franklin County), 4.75 inches at Hattieville (Conway County), 4.10 inches at Conway (Faulkner County), and 4.08 inches at Coal Hill (Johnson County). A subdivision flooded and cars were under water at Clarksville (Johnson County). It was the same story at Russellville (Pope County), and it looked like a lake near Arkansas State University. Roads were blocked off in Enola (Faulkner County) as water flowed over the pavement.

After dark on the 15th, isolated storms in the far north/west flooded Highway 59 near Natural Dam (Crawford County). There was a quick two to three inches of rain from Mountain Home to Gamaliel (both in Baxter County).

We went from flooding to severe weather on the 18th, mainly from northwest into central Arkansas. Ten miles southwest of Harrison (Boone County), a barn was destroyed by damaging straight-line winds. Trees and power lines were blown down just northeast of Subiaco (Logan County) on Highways 197 and 288, and also along Highway 22 at Midway (Logan County). Trees were toppled along

Page 2 of 4 Printed on: 11/02/2017

Highway 27 at Havana (Yell County).  Isolated storms redeveloped on the 19th, mainly across the north. One storm produced quarter size hall at Rodney (Baxter County).  WOODRUFF COUNTY 0.8 WSW RIVERSIDE [38.27, 41.24], 0.4 SSW RIVERSIDE [38.27, 41.23], 1.0 NNW PATTERSON [38.26, 41.24], 1.0 NNE CAVELL [38.28, 491.24]  0816917 04:00 CST 0 Flood (due to Heavy Rain) 0802271 12:00 CST 0 Source: River/Stream Gage Flooding developed on the Cache River at Patterson on August 16, 2017.  Heavy rain brought flooding to the Cache River during the middle of August.  Given all of the rain, flooding was almost non-asistent locally. That changed on the 15th. The front had lifted a bit to the north by this times, and was diraged across central Admissas. Before learns, large cluster of thunderstorms lit areas along and north of the Arkansas River, mainly north and west of Little Rock (Pulaski County). At least two dozen reporting sites registered four inches of rain or more.  By 700 am CDT, a whopping 720 inches was reported at Damascus (Am Buren County). That is two months of rain in just a few hours. Elsewhere, an imposes 45 Sinches of rain poured on Center Ridge (Conway County). 4.19 inches at Hattieville (Conway County), 4.10 inches at Conway (Faulkiner County), and 4.08 inches at Coal Hill (Johnson County). The projected track of Harvey was directed toward the Tennessee Valley to finish the month. Areas east of Little Rock (Pulaski County) were close enough to the track to worry about heavy downpours and localized flash flooding.

Flash Flood Watches were posted in eastern sections of the state on the 31st. Showers/isolated thunderstorms developed before dawn and continued through the day. By evening, two to four inch rainfall totals were common, with radar estimates over ten inches in spots.
