Storm Data and Unusual Weather Phenomena - June 2017

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
GARLAND COUNTY --- HOT SPRINGS VILLAGE [34.67, -93.00]				
	06/18/17 10:30 CST	0		Thunderstorm Wind (EG 52 kt)
	06/18/17 10:30 CST	0		Source: Public
There was a report on social media of trees blown down on the Desoto golf course in Hot Springs Village.				
<p>On the 18th, a cold front moved around the ridge and was accompanied by a large area of showers and thunderstorms. This precipitation arrived from Oklahoma in the morning. A cluster of storms downed trees at Hon and Y City (both in Scott County), Mount Ida (Montgomery County), Hot Springs Village (Garland County), Haynes (Lee County), and Hughes (St. Francis County). At the latter location, a tree landed on a car. In Garland County (Lake Ouachita), a boat overturned and stranded four people (two adults and two children) on an island. They were eventually rescued. Several thousand customers were without power due to the storms.</p>				
WHITE COUNTY --- 1.1 E BEEBE [35.07, -91.88], 2.0 E BEEBE [35.07, -91.86], 2.2 E BEEBE [35.06, -91.86], 1.2 ESE BEEBE [35.07, -91.88]

	06/23/17 17:53 CST		0	Flash Flood (due to Heavy Rain)
	06/23/17 17:53 CST		0	Source: Fire Department/Rescue

Numerous roadways were underwater with several roads closed. There were some reports of water getting into houses.

Showers and thunderstorms brought damaging winds and flooding.

The rain intensified and was widespread south and east of Little Rock (Pulaski County) during the wee hours of the 23rd. This is when Cindy crossed the region. The radar estimated 6 to 7 inches of liquid just north of Monticello (Drew County) and not far from DeWitt (Arkansas County). At least five inches dumped at Wynne (Cross County). Not only were some roads impassible due to high water at these places, water got into homes. At the latter location, images showed fields converted into lakes.

Sadly, all the wind resulted in two fatalities. Just east of Salesville (Baxter County), a man was on Lake Norfolk when the wind picked up (preceding a severe storm) and overturned his kayak. He was taken to a hospital and eventually died. A couple of miles south of Hardin (Jefferson County), a tree was toppled onto a vehicle and killed a motorist.

MARION COUNTY --- REA VLY [36.22, -92.53]				
	06/30/17 06:10 CST		0	Thunderstorm Wind (EG 61 kt)
	06/30/17 06:10 CST		0	Source: Emergency Manager

Thunderstorm winds damaged the roofs of a home and some barns.

BAXTER COUNTY --- 2.2 NE NORFORK [36.22, -92.25]				
	06/30/17 06:46 CST		0	Hail (0.88 in)
	06/30/17 06:46 CST		0	Source: Emergency Manager

BAXTER COUNTY --- 2.8 N OLD JOE [36.21, -92.23]				
	06/30/17 06:48 CST		0	Hail (0.75 in)
	06/30/17 06:48 CST		0	Source: Public

There was one more front to contend with on the 30th. Early in the day, the front sparked storms across the northern counties that produced penny to nickel size hail not far from Norfolk (Baxter County). Near Rea Valley (Marion County), gusty winds damaged the roofs of a few barns and a home.

Later in the day, another round of storms blossomed in Oklahoma and moved into Arkansas by evening. While there were a few Severe Thunderstorms Warning issued, this was mainly a heavy rain episode.

In the forty eight hour period ending at 700 am CDT on July 1st, rainfall averaged one to more than two inches in much of the north and west. Fort Smith (Sebastian County) got 2.80 inches, with 2.39 inches at Coal Hill (Johnson County), 2.09 inches at Subiaco (Logan County), and 1.70 inches at Fayetteville (Washington County).
