Top Five Lowest Stages

Period of Record - 1910 to September 30, 2016

Date	Crest (ft)	Flow (cfs)	Remarks
10/15/1910	0.60	160	Possibly incompatible with contemporary stage records
9/18/2002	0.80	missing	none
12/31/1998	0.85	missing	none
8/30/1999	0.86	missing	Also occurred 12/31/1998 with a flow of 301 CFS and 8/30/1999 and 9/1 - 2/1999
9/27/2010	1.00	416	Questionable - Data is limited for this time frame. Also occurred 9/21/2005

Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
9/18/2016	1.01	468	none

Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing includes valid and sometimes questionable stages. In some cases we have a brief list of questionable stages since it was unclear if the readings were due to a gauge malfunction or there wasn't enough data to determine its validity. Low stage (if found) are listed if there hasn't been any low stages in the last 15 years. The USGS sometime tweak their readings so please contact the USGS if you need more information.
