### Top Five Lowest Stages

Period of Record - 2012 to September 30, 2016

Date	Crest (ft)	Flow (cfs)	Remarks
9/10/2015	1.20	61	Also occurred 9/6 - 7/2015
9/16/2016	1.22	64	Also occurred 9/15/2014
9/25/2014	1.28	72	Also occurred 9/24/2014
10/6/2013	1.31	80	none
12/5/2012	1.64	missing	none

### Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
NA	NA	NA	none

### Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing will include valid and sometimes questionable stages. In some cases we will include a brief list of questionable stages. Therefore, some low stages could be missing. In some cases we didn't list the low stage since it was unclear if the readings were due to a gauge malfunction and we didn't have enough data to determine its validity. We will also list a recent low stage (if found) if there hasn't been any top 5 low stages in the last 15 years. Please contact the USGS if you need more information on low stage data.
