none	none	none	none
none	none	missing	none
none	none	missing	none
none	none	missing	none
none	none	missing	none

Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
none	none	none	none

This is a not a USGS gauge. Stage data is very limited.

Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing will include valid and sometimes questionable stages. In some cases we will include a brief list of questionable stages. Therefore, some low stages could be missing. In some cases we didn't list the low stage since it was unclear if the readings were due to a gauge malfunction and we didn't have enough data to determine its validity. We will also list a recent low stage (if found) if there hasn't been any top 5 low stages in the last 15 years. Please contact the USGS if you need more information on low stage data.
