

REPORTING HAIL SIZE

Use the following guidelines to estimate hail size:

MARBLE.....	0.50
PENNY/DIME.....	0.75
QUARTER.....	1.00
HALF DOLLAR.....	1.26
WALNUT.....	1.60
GOLFBALL.....	1.75
HENEGG.....	2.00
TENNIS BALL.....	2.60
BASEBALL.....	2.75
TEACUP.....	3.00
GRAPEFRUIT.....	4.00
SOFTBALL.....	4.50

When possible, avoid the use of the term "marble-size". Instead, try to relate hail size to coins ("dime-size", "smaller than a dime")
