

Record Temperatures updated daily

In order to provide the most up to date temperature records, the National Weather Service at Raleigh has started an initiative to update the record temperatures on a daily basis and share the information with the public via our web page. In addition, we have updated the latest Daily snowfall records and have posted them on our website. Here are a few steps to retrieve the records:

1. Visit the Local Data/Records portion of our website at:
http://www.weather.gov/climate/local_data.php?wfo=rah
2. Once there you can select the daily records for Raleigh(RDU) or one of the other climate locations:

Observed Weather | Climate Locations | Climate Prediction | Climate Resources | **Local Data/Records** | Astronomical | NOWData

Unique Local Climate Data
