| A severe thunderstorm impacted areas near Pittsburg. | | | | |

Storm Data and Unusual Weather Phenomena - June 2007

| Location | Date/Time | Deaths & Injuries | Property & Crop Dmg | Event Type and Details |
|---|--------------------|-------------------|---------------------|--------------------------------------|
| BOURBON COUNTY --- 0.7 N FULTON [38.01, -94.72] | | | | |
| | 06/10/07 07:00 CST | | 0 | Flash Flood (due to Heavy Rain) |
| | 06/10/07 10:30 CST | | 0 | Source: Law Enforcement |
| Heavy rain caused flooding across northern sections of Bourbon County. Numerous low water crossings were impassable to motorists. A local observer in the area had measured 3.40 inches of rain that fell in two hours. | | | | |
| CRAWFORD COUNTY --- 0.9 SE BRAZILTON [37.56, -94.96] | | | | |
| | 06/10/07 15:44 CST | | 0 | Hail (0.88 in) |
| | 06/10/07 15:44 CST | | 0 | Source: Law Enforcement |
| CRAWFORD COUNTY --- 0.7 S PITTSBURG [37.41, -94.70] | | | | |
| | 06/10/07 16:05 CST | | 5K | Thunderstorm Wind (EG 50 kt) |
| | 06/10/07 16:05 CST | | 0 | Source: Law Enforcement |
| Severe thunderstorm wind gusts downed a few power poles along with numerous trees across the city of Pittsburg. | | | | |
| CHEROKEE COUNTY --- 2.0 W WEIR [37.30, -94.81] | | | | |
| | 06/10/07 16:25 CST | | 0 | Tornado (EF0, L: 0.10 mi , W: 50 yd) |
| | 06/10/07 16:27 CST | | 0 | Source: Broadcast Media |
| A photographer from KODE TV in Joplin filmed a tornado briefly touching down. The tornado was located one mile south southeast of the intersection of Highway 400 and 7. No damage occurred as the tornado mainly impacted an open field. | | | | |
| CRAWFORD COUNTY --- 0.7 S PITTSBURG [37.41, -94.70] | | | | |
| | 06/10/07 16:35 CST | | 0 | Flash Flood (due to Heavy Rain) |
| | 06/11/07 16:00 CST | | 0 | Source: Emergency Manager |
| Periods of excessive rainfall caused flash flooding over much of Crawford County for nearly 24 hours. Locations that experienced this flooding included, city streets in Pittsburg, a section of 520th AVE. between 250th and 260th streets, and low lying areas along Cow Creek. On the days of the 11th and 12th, the Crawford County Emergency Manager had stated that flash flooding was ongoing countywide, and the road closures were too many to count. | | | | |
| CHEROKEE COUNTY --- 1.6 W KNIVETON [37.32, -94.70] | | | | |
| | 06/10/07 17:30 CST | | 1M | Flash Flood (due to Heavy Rain) |
| | 06/11/07 16:00 CST | | 0 | Source: Emergency Manager |
| The Spring River along with smaller non-stem river and creek systems experienced major flooding across the entire county. Approximately 50 homes were flooded along the Spring River. Many of the homes that were flooded are located from Baxter Springs to Riverton. Across the western section of Cherokee County, the Neosho River along with its smaller tributaries experienced major flooding. Numerous roads and bridges in these areas were washed out or destroyed. | | | | |
| CHEROKEE COUNTY --- 0.6 W COLUMBUS [37.17, -94.84] | | | | |
| | 06/12/07 07:29 CST | | 1.15M | Flash Flood (due to Heavy Rain) |
| | 06/13/07 06:00 CST | | 0 | Source: Emergency Manager |
| Another stationary band of heavy rain occurred on the night of June 11th and the morning of June 12th. In response, significant flooding occurred in all areas of the county. The Spring and Neosho rivers remained flooded, causing damage to homes and several road systems. | | | | |
| CRAWFORD COUNTY --- 0.7 S PITTSBURG [37.41, -94.70] | | | | |
| | 06/12/07 08:38 CST | | 0.12M | Flash Flood (due to Heavy Rain) |
| | 06/12/07 19:00 CST | | 0 | Source: Trained Spotter |
| An additional band of heavy rainfall caused another round of flooding across Crawford County. The southeast corner of Crawford County near Cow Creek was impacted the most. Damage to several road systems occurred in response to the raging flood water. | | | | |
| Several waves of heavy rainfall occurred over southeast Kansas and southwest Missouri between June 10th and June 12th. The Spring River basin was especially impacted with this heavy rain. The Waco, Missouri DCP gauge along the Spring River measured 12 inches during one overnight episode. This caused massive flooding of small creeks and main stem rivers across Cherokee, Crawford, and Bourbon counties. One weak tornado touched down in northern Cherokee County on the 10th. Meanwhile a few other minor episodes of wind damage and large hail occurred in Crawford County. | | | | |
| CHEROKEE COUNTY --- WEST MINERAL [37.28, -94.92] | | | | |

Storm Data and Unusual Weather Phenomena - June 2007

| Location | Date/Time | Deaths & Injuries | Property & Crop Dmg | Event Type and Details |
|----------|--------------------|-------------------|---------------------|---------------------------------|
| | 06/24/07 16:23 CST | | 0 | Flash Flood (due to Heavy Rain) |
| | 06/24/07 19:00 CST | | 0 | Source: Emergency Manager |

A stationary thunderstorm over the city of West Mineral caused several streets to become flooded and impassable to motorists.

Isolated flash flooding occurred in southeast Kansas.

BOURBON COUNTY --- 0.9 NW FT SCOTT [37.84, -94.71]

| | | |
|--------------------|---|---------------------------------|
| 06/28/07 14:30 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/28/07 19:30 CST | 0 | Source: Law Enforcement |

Thunderstorms containing excessive rainfall flooded a few spots within Bourbon County. Locations that experienced this flooding included a county bridge on 205 Street northwest of Fort Scott, numerous city streets in Fort Scott, a section of Highway 31 west of Fulton, and a section of Highway 7 near Overbrook Road.

CRAWFORD COUNTY --- 0.9 SW FRANKLIN [37.51, -94.71]

| | | |
|--------------------|---|---------------------------------|
| 06/28/07 15:15 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/28/07 19:15 CST | 0 | Source: Law Enforcement |

Excessive rainfall caused flash flooding near the intersection of Highway 69 and 47.

Thunderstorms tracked slowly across extreme southeast Kansas. A few areas of flash flooding were observed in Bourbon and Crawford counties.

CHEROKEE COUNTY --- 0.6 W BAXTER SPGS [37.02, -94.74]

| | | |
|--------------------|---|---------------------------------|
| 06/29/07 17:16 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/29/07 19:16 CST | 0 | Source: Law Enforcement |

A stationary thunderstorm over the city of Baxter Springs caused widespread flash flooding, including a few homes and city buildings.

A thunderstorm developed over Baxter Springs and did not move. Over four inches of rain was measured within a one hour time frame.

BOURBON COUNTY --- 0.9 NW FT SCOTT [37.84, -94.71]

| | | |
|--------------------|---|---------------------------------|
| 06/30/07 02:50 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/30/07 11:00 CST | 0 | Source: Law Enforcement |

Thunderstorms caused widespread flash flooding across Bourbon County.

CRAWFORD COUNTY --- 0.9 NE GIRARD [37.51, -94.84]

| | | |
|--------------------|---|---------------------------------|
| 06/30/07 03:00 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/30/07 11:00 CST | 0 | Source: Law Enforcement |

Widespread flash flooding occurred in response to another round of storms.

CHEROKEE COUNTY --- 0.9 SE TURCK [37.26, -94.82]

| | | |
|--------------------|---|---------------------------------|
| 06/30/07 03:20 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/30/07 11:00 CST | 0 | Source: Emergency Manager |

All small streams, creeks, and the Neosho River were flooding much of the county.

CRAWFORD COUNTY --- 0.9 NE GIRARD [37.51, -94.84]

| | | |
|--------------------|---|---------------------------------|
| 06/30/07 21:55 CST | 0 | Flash Flood (due to Heavy Rain) |
| 06/30/07 23:59 CST | 0 | Source: Law Enforcement |

Flash flooding continued over Crawford County.

Another round of thunderstorms developed during the daytime hours of June 30th. Heavy rain combined with saturated soils from the many rain events over the course of the spring and early summer caused another round of flash flooding.
