

Physical_Data_Model_12;6
Multi-Sensor Precipitation Estimator (MPE) Parametric Tables

RWPrefs

[User preferences for mpe_gui. Not used by hmap_mpe]

RWParams

[MPE application parameters.]

RWBiasStat

[MPE mean-field bias calculation static parameters.]

RWVerif

[MPE verification data that matches gage values with MPE output grid results by station, obstime, and duration. No actual FK back to Location. Not currently used.]

RWResult

[MPE output results by RFC and obstime. No actual FK back to Rfc.]
