Gusty canyon winds | Increased precipitation chances | Critical fire weather Sunday

Peak Wind Gusts Thursday Night

Key Details:

Gusty east canyon winds Thursday night into Friday will create difficult crosswinds on north to south oriented roadways and may blow loose away loose items in Albuquerque and Santa Fe.

Precipitation chances ramp up Thursday through early next week. Widespread precipitation is on tap for Friday, then eastern NM will be favored this weekend into early next week. Some storms may produce **hail, gusty winds and locally heavy rainfall** across eastern NM this weekend.

Critical fire weather conditions and **strong winds** return on **Sunday** for western and central New Mexico.
