Definitions for New York State

SEVERE WEATHER

SEVERE THUNDERSTORM: a thunderstorm that produces one or more of the following:

- hail 1 inch or greater
- damage to trees, telephone/utility poles and/or any structure
- winds greater than 58 mph
- tornado

SIGNIFICANT SEVERE: if any of the following hazards occur:

- hail 2 inch or greater
- winds of at least 75 mph
- tornado of at least EF-2 rating

Lightning (and the resulting thunder) is what makes a storm a thunderstorm but does not make one severe.

SEVERE WEATHER

TORNADO WATCH /BE PREPARED/ - issued when severe thunderstorms also **may produce** tornadoes. The watch is issued for a large area and is usually in effect for several hours.

TORNADO WARNING /TAKE ACTION/ - issued when a tornado is **imminent or occurring** and is usually in effect for 45 minutes or less. Wireless Emergency Alert (WEA) is issued with all tornado warnings.

TORNADO TERMINOLOGY

Tornado Watch

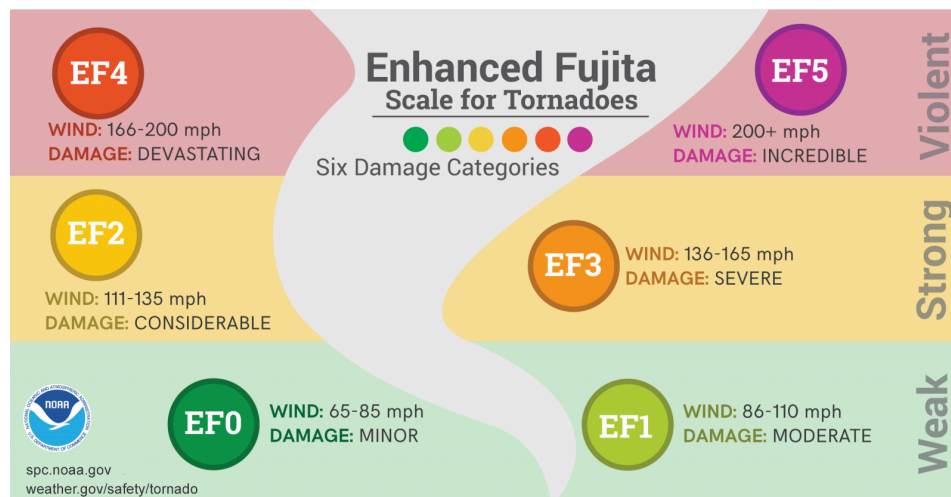

Weather conditions could lead to the formation of severe storms and tornadoes. **BE PREPARED:** Know your safe location. Be ready to act quickly if a Warning is issued or you suspect a tornado is approaching.

Tornado Warning

A tornado has been spotted or indicated by weather radar, meaning a tornado is occurring or expected soon. **TAKE ACTION:** There is imminent danger to life and property. Immediately seek refuge in the safest location possible.

Tornado Emergency

An exceedingly rare situation with a severe threat to human life and catastrophic damage due to a confirmed violent tornado. **TAKE ACTION:** There is imminent danger to life and property. Immediately seek refuge in the safest location possible.
