Public Information Statement
National Weather Service Albany NY
922 AM EDT Mon Oct 23 2023

To: Subscribers:
- NOAA Weather Wire Service
- Emergency Manager Weather Information Network
- NOAAPORT
- Other NWS Partners And Employees

From: Christopher Gitro, Meteorologist-in-Charge

Office Name: WFO Albany, NY

Subject: Resumption of upper-air observations at WFO Albany, NY

Note: The following changes have no impact on NOAA Weather Wire Service Subscribers.

Upper-air observations will resume the week of October 23rd at WFO Albany, NY. Beginning with the 00Z Wednesday October 25 2023 launch, soundings will be conducted using the GRAW Manual Radiosonde Observing System (MROS) which uses the DFM-17 radiosonde.

The header for Albany, NY KALY (Station ID 72518) has not changed with the introduction of MROS. The official header of the Albany Office will continue to be used for transmission of official products.

If you or your organization have any questions about these changes, please contact:
