	20	1901CST			0	0			Hail(2.50)
--	-----------	----------------	--	--	----------	----------	--	--	-------------------

Associated with a second severe storms which moved over the area

**Beaver County
Gate**

	20	1915CST			0	0			Hail(1.00)
--	-----------	----------------	--	--	----------	----------	--	--	-------------------

Severe thunderstorms with very large hail moved across the eastern Oklahoma panhandle during the early evening hours. No damage or injuries were reported from the large hail.

TEXAS, North Panhandle

TXZ001-004-006>007-007 **Dallam - Ochiltree - Hartley - Moore**

	05 06	1247CST 2125CST			0	0			High Wind (MG54)
--	------------------	----------------------------	--	--	----------	----------	--	--	-------------------------

TXZ012

	Potter 06	2053CST			0	0	15K		Strong Wind (MS36)
--	----------------------	----------------	--	--	----------	----------	------------	--	---------------------------

The tin roof was blown off an automotive shop and a fence was ripped apart in the 1400 block of Southeast Third Avenue in Amarillo.

Surface low pressure along the lee of the Rockies deepened during the afternoon and evening hours resulting in sustained wind speeds of forty miles per hour or higher at the Dalhart...Dumas...and Perryton ASOS sites for several hours and a sustained wind speed of forty-one miles per hour at the Amarillo ASOS site for less than one hour. Wind gusts at Perryton and Dumas reached or exceeded 58 miles per hour during the high wind event. Wind damage was reported in Amarillo during the late evening hours but no injuries occurred.
