**As recorded at the NWS Gaylord Office 9mi south of Gaylord proper

Photo: Aftermath of the most devastating ice storm to strike Michigan in 103 years as seen near Gaylord on March 31st, 2025. The ice storm caused the collapse of nearly the entire power grid across several counties, widespread communication disruptions, and devastated millions of acres of Michigan's pristine forests, along with causing damage to homes and vehicles from falling debris.

Note- snowfall data not available for Pellston
