COUNTING CHICKENS

Saw the last of the chickens tonight and of course it is the end of another nesting season. Here is the nesting summary for our yard:

- 500 eggs collected
- 20 chicks hatched
- 10 chicks died during incubation
- 10 chicks died after hatching

Total chicks: 190

The remaining chickens will be relocated to a new area next week.

COUNTING HUMANS

In the last sentence, I should have said that the nesting season for humans is also coming to an end. It's been a busy spring and I'm looking forward to the quiet of the summer months.

SLEEPING ON THE JOB

It's the end of the line for the sleeping on the job policy. As of tomorrow, anyone caught sleeping on the job will be immediately fired. This policy has been in place for over 10 years and it's time for a change.

TOO POLITICAL

The political climate has changed and I feel it's time to take a break from politics. I will be stepping down from my role as political commentator and will be focusing on my family and hobbies for the next few months.
