A New City Hall?

While details of available funds and reconstruction costs are generally subject to change, it is written, there is a groundswell of opinion that only one building project in the City Hall replacement build a new one after the shift.

City Hall on heavily damaged 1st Ave., except for a portion of its facade. The building's future is uncertain, as the city council continues to discuss the matter.

The city officially purchased two lots adjacent to City Hall for potential use as a new City Hall site. The lots were purchased for $80,000 each, and the city plans to demolish the existing City Hall building and construct a new one on the site.

Construction costs are estimated to be at least $1 million. The city council has authorized $1.5 million for the project, but it is unclear if that amount will be sufficient.

The city council has also discussed the possibility of using a combination of federal and state funding sources to help cover the cost of the new City Hall.

The new City Hall is expected to be completed by late 2000, although the exact timeline is uncertain due to the ongoing negotiations with the city council.
