

# Strong Storms & Isolated Flash Flooding Possible Tuesday

April 29, 2024  
4:26 PM

Tuesday Afternoon through Tuesday Evening

## HIGHEST LOCAL RISK

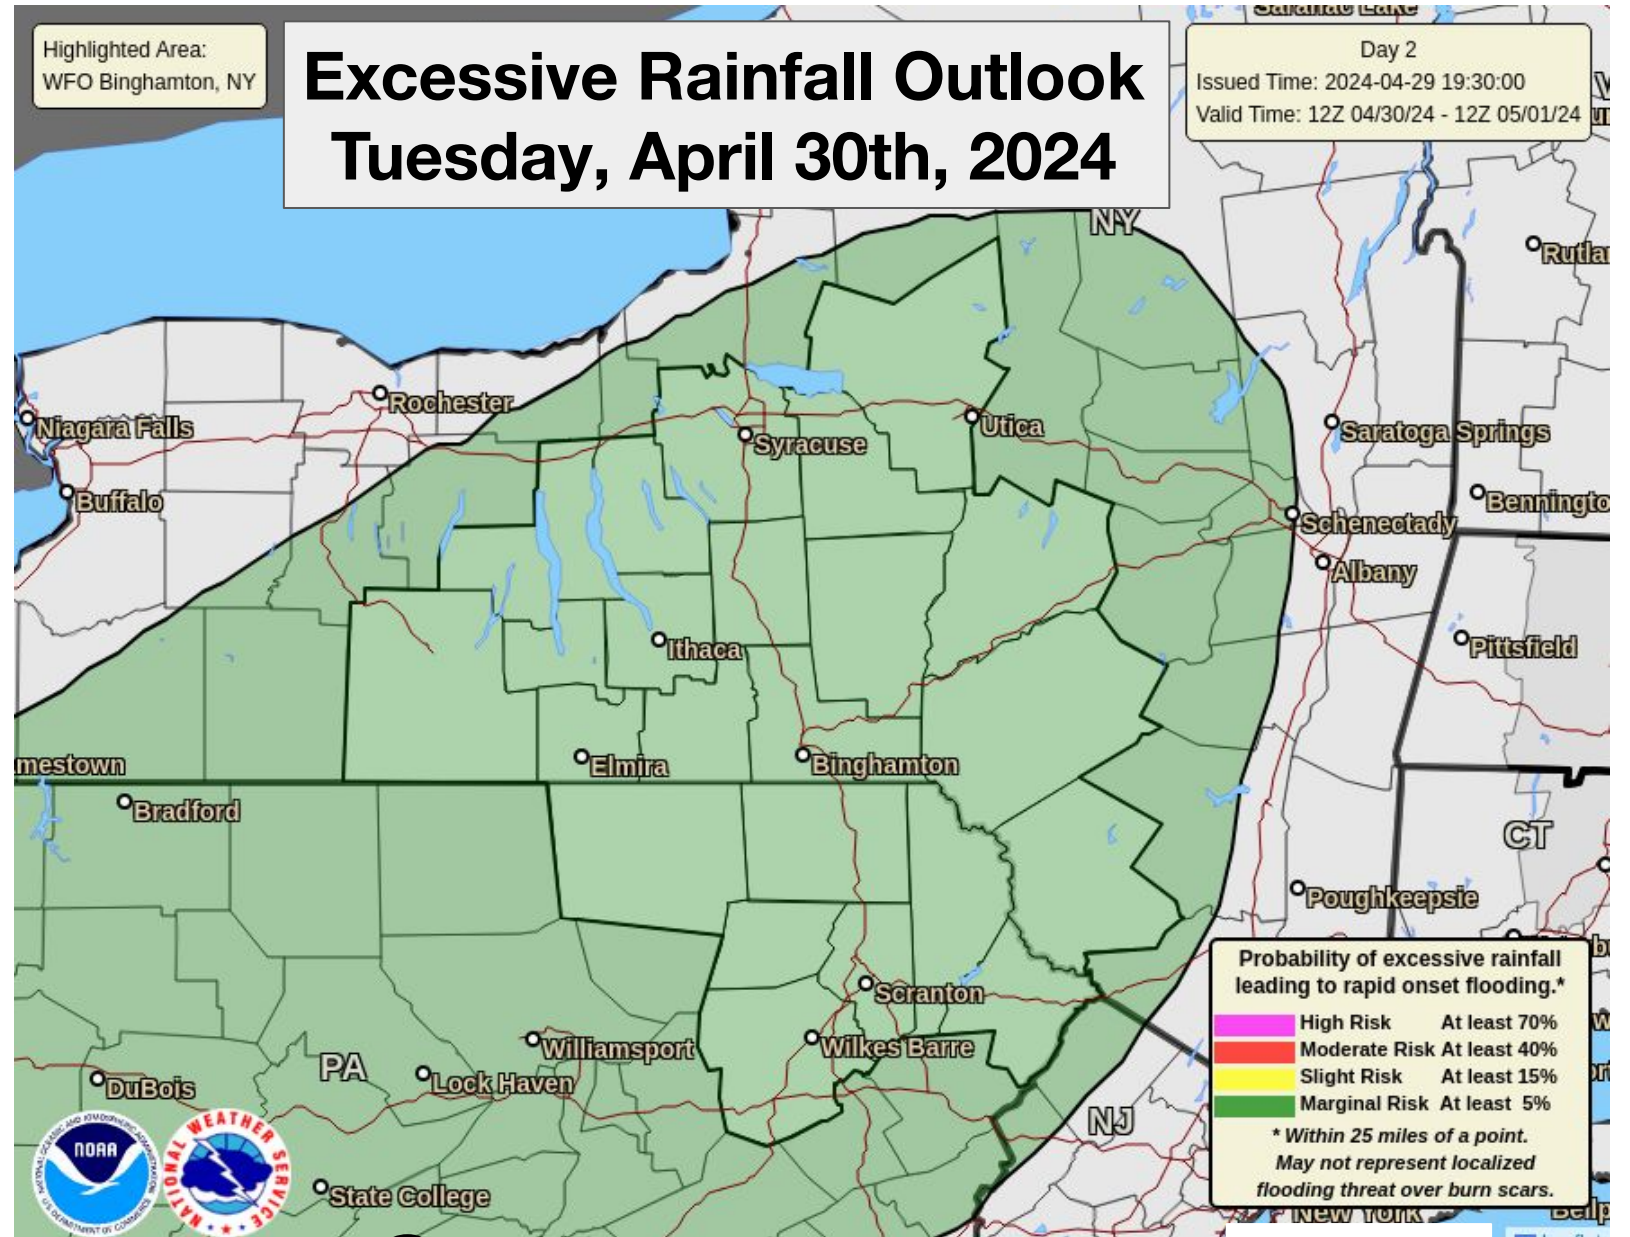

WHAT THIS MEANS:  
**ISOLATED** flash floods possible

## POSSIBLE THREATS

HEAVY RAIN

## Key Messages

- Scattered thunderstorms are likely ahead of a frontal system moving through on Tuesday.
  - Some of these storms have the potential of producing strong & gusty winds.
- There is also a **marginal risk for flash flooding** Tuesday afternoon through the evening hours.
  - Heavy downpours could lead to local urban and small stream flood issues.
- Increasing confidence for thunderstorms, especially for the Twin Tiers and NEPA.
