In the early afternoon of Thursday, June 26th, Severe Thunderstorm Watch 610 was issued due to severe thunderstorms developing along and ahead of a strong surface cold front, and ahead of an upper level short wave trough providing large scale ascent. Severe Thunderstorm Watch 613 was issued later Thursday evening, and included additional counties in the southeastern Bismarck County Warning Area.

Multiple severe thunderstorm warnings were issued. Multiple reports of large hail and several reports of severe thunderstorm wind gusts were received during the afternoon and evening hours.
