<hr/>				
A thunderstorm downburst produced an extensive area of damage in southern Etowah County , just south of the Southside Community. The damage swath extended from the southern end of Babe Jackson Drive, northeastward for about 3 miles, to AL-77. The heaviest concentration of damage was in the Grant Drive, Routon Circle, Meadow Circle, Nabors Drive, Broughton Springs Road, and Mountain Top Road areas. At least 27 homes and other structures, and 2 vehicles, received minor to moderate damage due to the wind and from fallen trees. Around 100 trees were either uprooted or snapped off. Peak wind gusts were estimated around 100 mph.				
<hr/>

Storm Data and Unusual Weather Phenomena - August 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

The tornado touched down just northeast of the Saint Clair Correctional Facility. It then moved northwest, crossing AL-23 and Interstate 59, and then lifted just east of the intersection of AL-23 and US-11. A few structures had minor damage from fallen trees. Otherwise, damage was primarily snapped softwood trees along the path. This tornado was associated with the remnants of Tropical Storm Fay.

BLOUNT COUNTY --- 4.7 SSE ALLGOOD [33.86, -86.47], 4.3 SSE ALLGOOD [33.86, -86.48]

	08/25/08 10:25 CST		10K	Tornado (EF1, L: 0.41 mi , W: 60 yd)
	08/25/08 10:26 CST		0	Source: NWS Storm Survey

The tornado touched down near the south shore on the eastern end of Inland Lake, directly across the lake from the boat launch. It then moved northwestward across the lake, across the boat launch area, and lifted about a quarter mile northwest of there just off of Boat Landing Road. Numerous trees were snapped off or were uprooted. Two structures sustained light damage and a few power poles were knocked down. The tornado was witnessed by a Blount County Sheriff's Deputy and a Birmingham Water Works employee. These witnesses were aware of a tornado warning and took cover quickly as the tornado formed. This tornado was associated with the remnants of Tropical Storm Fay.

JEFFERSON COUNTY --- 0.7 NNW MORGAN [33.34, -86.92], 0.8 N MORGAN [33.34, -86.92], 0.5 ENE MORGAN [33.33, -86.91], 0.3 NNE MORGAN [33.33, -86.92]

	08/25/08 10:30 CST		0	Flash Flood (due to Heavy Rain / Tropical System)
	08/25/08 11:30 CST		0	Source: Amateur Radio

Morgan Road, near Interstate 65, was temporarily closed due to 2 feet of standing water caused by heavy rainfall associated with the remnants of Tropical Storm Fay.

CLEBURNE COUNTY --- 2.8 NW CHULAFINNEE [33.58, -85.68], 3.2 NW CHULAFINNEE [33.59, -85.68]

	08/25/08 11:06 CST		0.10M	Tornado (EF2, L: 0.36 mi , W: 400 yd)
	08/25/08 11:07 CST		0	Source: NWS Storm Survey

The tornado touched down on US-431, about a half mile south of the intersection with AL-281. It then moved northwestward, along and just east of US-431, and lifted just before reaching AL-281. One gas station/convenience store and one auto body shop were significantly damaged. Approximately 100 to 200 trees were snapped off or were uprooted along the damage path. This tornado was associated with the remnants of Tropical Storm Fay.

CALHOUN COUNTY --- 1.0 SW OLD DAVISVILLE [33.64, -85.68]

	08/25/08 11:11 CST		10K	Tornado (EF1, L: 0.01 mi , W: 50 yd)
	08/25/08 11:11 CST		0	Source: NWS Storm Survey

One home was significantly damaged by a brief tornado touched down in the Sugar Valley subdivision, just off Old Downing Mill Road, in southeastern Calhoun County. This tornado was associated with the remnants of Tropical Storm Fay.

CALHOUN COUNTY --- 0.9 NNE CHOCCOLOCCO [33.68, -85.69], 1.6 S PLEASANT RIDGE [33.70, -85.70]

	08/25/08 11:19 CST		0.15M	Tornado (EF1, L: 1.10 mi , W: 250 yd)
	08/25/08 11:20 CST		0	Source: NWS Storm Survey

The tornado touched down on Cross Creek Road, just east of Choccolocco Road. It then moved north-northwestward, roughly parallel to Choccolocco Road, and lifted near the intersection of Choccolocco Road and Cobb Road. One auto shop was destroyed and two houses sustained moderate damage. Additionally, one home suffered light damage and 50 to 100 trees were snapped off or uprooted along the path. This tornado was associated with the remnants of Tropical Storm Fay.

PIKE COUNTY --- 1.0 SSW ENON [31.81, -85.73]

	08/25/08 16:58 CST		2K	Tornado (EF0, L: 0.01 mi , W: 20 yd)
	08/25/08 16:58 CST		0	Source: NWS Storm Survey

A brief tornado touched down, near the Enon Community in eastern Pike County, uprooted several hardwood trees, and snapped off several other large branches. This tornado was associated with the remnants of Tropical Storm Fay.

Tropical Storm Fay, and its remnants after landfall, brought high winds, heavy rain, and numerous tornadoes to Central Alabama.

ELMORE COUNTY --- 2.1 S BUTTS MILL [32.54, -85.97], 0.7 S DEATSVILLE [32.61, -86.40]

	08/31/08 17:45 CST		10K	Thunderstorm Wind (EG 40 kt)
	08/31/08 18:25 CST		0	Source: Emergency Manager

Sporadic trees and power lines were blown down from thunderstorm outflow, from the Friendship Community to Deatsville.

Place holder.

Storm Data and Unusual Weather Phenomena - August 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

ALABAMA, North

(AL-Z004) LAWRENCE, (AL-Z005) LIMESTONE, (AL-Z006) MADISON, (AL-Z007) MORGAN, (AL-Z009) JACKSON, (AL-Z010) DEKALB, (AL-Z016) CULLMAN

08/01/08 00:00 CST	0	Drought
08/31/08 23:59 CST	0	

August finally marked the first substantial rainfall for the Central Tennessee Valley since we entered into the heart of the drought in early 2006. The month began rather uneventfully with a series of mainly dry cold fronts. The parade of cold fronts was stopped just after mid-month as Tropical Storm Fay approached Florida. No measurable rain was observed between the 13th and 23rd although Huntsville reported trace amounts on six of those eleven days. The big rainmaker was Tropical Storm Fay, which brought between two and eight inches of rain to the area.

For most of the Tennessee Valley, this was the first substantially above-normal rainfall month of 2008, and in Huntsville, the first since October 2006 that was above normal at all. The calendar day total of 2.19 inches from August 25th was also the most rainfall to occur in a calendar day since November 15th, 2006.

River base-flow actually increased as a result of Fay in North Central and Northeast Alabama, the first sign of improvement in stream-flows from the drought. Deep groundwater also recovered to near average, and soil moisture reached near average levels for the first time in about two years.

Drought conditions were generally status-quo during the month, with D2 /Severe Drought/ to D3 /Extreme Drought/ reported in central and eastern portions of north Alabama. Some improvement was noted at the end of the month as a result of Fay, limiting /D2/ conditions to only Jackson and DeKalb Counties.

LAUDERDALE COUNTY --- 0.6 E NORTH FLORENCE [34.83, -87.67]

08/02/08 13:00 CST	1K	Thunderstorm Wind (EG 52 kt)
08/02/08 13:05 CST	0	Source: Emergency Manager

A severe thunderstorm downed a tree across Rickwood road in northern Florence.

	08/23/08 00:00 EST		0.10M	Tropical Storm
	08/25/08 00:00 EST		0	

Tropical Storm Fay, which came ashore just northeast of Apalachicola, Florida during the early morning of the 23rd, slowly weakened as it moved west-northwest across the Florida Panhandle during the day. Its rainbands generated very heavy rainfall and peak wind gusts over 40 mph throughout southeast Alabama. Rainfall amounts from Fay during the 48-hour period ending at midnight on the 25th ranged from three to eight inches. A peak wind gust of 41 knots was measured at Napier Field in Dale County, Alabama on the 23rd. That same day, the lowest sea-level pressure recorded was 999.7 mb at Ozark, Alabama. There were numerous reports of downed trees and limbs, with several falling across power lines and county roads. An estimated 13,000 residents were without power. The Choctawhatchee and Pea rivers rose to just below their respective flood stages.

A tornado touched down near the intersection of County Roads 19 and 15, about three miles northwest of Skipperville. Several trees were uprooted and a barn was heavily damaged.

HOUSTON COUNTY --- 2.1 SSE GORDON [31.12, -85.08], 2.0 SE GORDON [31.13, -85.08]				
	08/25/08 18:26 CST		75K	Tornado (EF1, L: 0.20 mi , W: 50 yd)
	08/25/08 18:27 CST		0	Source: Emergency Manager

A tornado briefly touched down just south of Gordon. A mobile home along East County Road 8 was destroyed when an uprooted tree crashed on top of it. There were several trees with their tops snapped off along the tornado's short path.

The remnants of Tropical Depression Fay stalled over southern Mississippi on the 25th, and produced severe thunderstorms which spawned a few tornadoes and damaging winds in southeast Alabama.

Storm Data and Unusual Weather Phenomena - August 2008

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>Heavy rains on the backside of Fay brought street flooding and forced several roads to be closed near the Bay. Radar estimated that five to eight inches of rain fell across the area. The storms kept moving over the same general area and caused several side streets to flood and become impassable. The hardest hit areas were along the Dog River and along Bayou Sara. Because of above normal tides the heavy rains caused water to rapidly rise and several homes had to be evacuated. The only damage reported was to the lower part of some homes.</p>

<p>CRENSHAW COUNTY --- 2.1 NNE PETREY [31.88, -86.19], 5.6 ENE BULLOCK [31.57, -86.10], 5.1 WNW THEBA [31.59, -86.40], 4.3 ESE HONORAVILLE [31.88, -86.33]</p>				
	08/25/08 13:30 CST		0	Flash Flood (due to Heavy Rain / Tropical System)
	08/25/08 15:00 CST		0	Source: Emergency Manager

Heavy rains on the backside of Fay brought street flooding and forced several roads to be closed in the central and east parts of the county. Several roads were closed for more than an hour due to high water. Radar estimated that three to five inches of rain fell across the area. The storms kept moving over the same general area for several hours. No damage was reported from the heavy rains.

Heavy rains on the back side of Fay brought flooding to parts of southwest Alabama.
