#### ALABAMA, Central

04/08/10 03:42 CST 15K Tornado (EF0, L: 0.20 mi, W: 50 yd) 04/08/10 03:43 CST Source: NWS Storm Survey 0

The short-lived tornado touched down on the northernmost ball field in Blountsville Park, where it ripped the tin roofing off the dugouts and carried them to a tree line approximately 300 to 400 yards down the path. It then continued to the north-northeast for less than a quater mile and crossed Park Drive, where it damaged a portion of the roof of a house. One large oak tree with a poor root system was also uprooted.

#### JEFFERSON COUNTY --- 2.0 WSW ROCKY RIDGE [33.42, -86.73]

04/08/10 04:06 CST 0.20M Lightning 04/08/10 04:06 CST 0 Source: Newspaper

A house sustained significant damage from fire after being struck by lightning, in the Altadena Bend neighborhood near the Jefferson and Shelby County line. The residents heard the loud boom of thunder, and then had only a few minutes to get out of the house before it became engulfed. The fire destroyed the attic and upper floor of the two-story home. Three firefighters were injured (indirect) when the back deck on which they were standing collapsed, as they were dousing hot spots.

#### ETOWAH COUNTY --- 2.9 ENE WALNUT GROVE [34.08, -86.25]

04/08/10 04:20 CST 10K Liahtnina

04/08/10 04:20 CST 0 Source: Emergency Manager

A house fire, with unspecified damages, was caused by a lightning strike in the New Union community.

#### ETOWAH COUNTY --- 0.5 WNW ATTALLA [34.02, -86.09], 0.5 WSW REESEVILLE [34.05, -86.04]

04/08/10 04:28 CST 20K Thunderstorm Wind (EG 50 kt) 04/08/10 04:29 CST 0 Source: Broadcast Media

Numerous trees were blown down in a swath from Attalla to the north side of Gadsden. Some trees were blown down and blocked a portion of Interstate 59, north of exit 183, and both lanes of the highway had to be closed for a short time to clear them.

## ETOWAH COUNTY --- 0.7 NNE SARDIS CITY [34.18, -86.11]

04/08/10 04:28 CST 20K Thunderstorm Wind (EG 50 kt) 04/08/10 04:28 CST 0 Source: Law Enforcement

Several trees were blown down near the intersection of Patterson Street and Alexander Drive, near the Sardis City community. A portion of a garage roof was blown off, and a home sustained damage from a fallen tree.

A cold front pushing through the area caused numerous showers and thunderstorms across central Alabama. One storm produced a weak tornado, and another an isolated area of wind damage.

witnessed the tornado and ran for shelter. At least 20 vehicles were damaged, many with windows blown out. Tool boxes were ripped off the back of a few trucks and were thrown into other vehicles, and many trees were snapped off in the area. The tornado then crossed US-43 and moved into a rural part of the county, before crossing the Black Warrior River and moving into Greene County.

The tornado

The same supercell which produced the tornado in from Blount into Marshall and DeKalb Counties produced a second tornado around 11:25 PM CDT. This tornado touched down 4 miles south southwest of Mentone, near Desoto State Park. The tornado reached EF-3 intensity with speeds up to 140 mph destroying several single wide manufactured homes. The tornado also snapped and uprooted numerous large trees. Significant damage was seen along it's path to the Alabama/Georgia state line. The hardest hit areas were between CR 117 and CR 106, just to the south southeast of Mentone. The most significant damage occurred to a trailer park (Morning Glory Court) where several single wide manufactured homes were completely destroyed. Numerous

large trees were also snapped or uproofed. The fornado continued moving northeast and cross	sed into Chattoog	ga county (Northwest Georgia) around
11:34 PM CDT. Additional damage occurred as it traveled another 8 miles into northern Chatto	oga county.

A long track tornado began it's 16.6 mile path about a half mile west of Hendrixville. The tornado intensified and knocked several trees down and damaged a chicken farm about 2 miles east northeast of Hendrixville just west of Interstate 59. The tornado continued sporadically into the town of Collinsville where it knocked three trees down and lifted several canopies at a campground. The tornado intensified and became violent just northeast of Collinsville reaching EF-4 intensity with winds of 170 mph with a path width of 1/4 to 1/2 miles. This path impacted areas from Mount Vernon to Dog Town in extreme southeastern DeKalb County. The tornado destroyed several single wide manufactured homes along County Road 60, between County Roads 822 and 892. Numerous large trees were snapped or uprooted. The McNutt Memorial United Methodist Church and a two-story residence across the street were destroyed near the intersection of County Roads 80 and 55. Oak trees nearby were debarked as well. The tornado produced structural damage to residences along County Road 79 just west of Highway 176. The tornado lifted about 1.4 miles east southeast of Dog Town.

Four damaging tornadoes tore tracks through north central and northeast Alabama during the evening and overnight hours of the 24th. These tornadoes were part of a larger regional tornado outbreak across the lower Mississippi and Tennessee Valleys. The tornadoes were associated with three separate long track supercell thunderstorms that thrived upon a very unstable and high shear environment. One of the longer track tornadoes tore through several successive communities with up to EF-3 strength in Marshall and DeKalb Counties, including the towns of Albertville, Geraldine and Pine Ridge, lifting just before reaching Fort Payne. A tornado from the same storm then touched down again in the Mentone area before crossing the Georgia state line. Another supercell produced yet another tornado southwest of Collinsville, tracking just a few miles south of the earlier damaging tornado. This tornado reached EF-4 strength when it completely leveled the McNutt United Methodist Church on County Road 55. Fortunately, no fatalities occurred with these particular tornadoes, but damages were severe.

In Marshall County, total costs from the tornado had exceeded \$14 million, which included 1032 homes experiencing at least some damage, and 93 homes destroyed. In DeKalb County, damage losses were still being tallied. Debris removal costs alone have exceeded \$3 million.

An EF-4 tornado destroyed the McNutt Memorial Methodist Church in DeKalb County.
