Two inches of rain fell in one hour at the Birmingham International Airport. The heavy rainfall produced flash flooding along Fivemile Creek and Center Point Parkway.

Deep moisture resided over Alabama on May 22-23 with PWAT values 1.5 to 1.8 inches. Afternoon surface based CAPE values reached 3000-4000 J/kg both days, but steeper mid level lapse rates on May 22 resulted in a majority of the storms producing large hail.

LEE COUNTY --- 2.8 N SALEM [32.64, -85.23]

 05/27/20 17:50 CST

Several trees uprooted and power lines downed along Lee Road 252.

LAUDERDALE COUNTY --- 1.1 E CENTRAL HGTS [34.90, -87.76]

A narrow line of showers and thunderstorms tracked eastward across east Alabama during the afternoon hours. A mid level velocity couplet formed on a cell on the southern end of the convective line and produced localized strong winds.
