	04/24/21 06:55 CST	2	0	Source: NWS Storm Survey
An EF1 tornado touched down near CR 120 in Henry County with max winds estimated at 95 mph. The tornado moved quickly eastward, causing extensive tree damage. Numerous snapped and uprooted trees were observed. A mobile home was flipped on CR 12 near CR 53. Two injuries were reported at this location. Other minor damage to roofs and damage to outbuildings was noted in this area. The tornado dissipated as it crossed CR 61. The rating was determined from the extensive tree damage, the damage to the mobile home, and other minor damage to homes.

## Storm Data and Unusual Weather Phenomena - April 2021

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>A brief EF0 tornado with max winds estimated at 80 mph touched down in Houston County just west of North CR 75. Power lines were damaged along the road. Roughly half of the metal roofing from one brick home was peeled on and lofted into the backyard. Minor damage to the metal roof of a neighboring home was observed. The tornado continued into the forested area behind the home, causing tree damage, before dissipating.</p>

	04/10/21 05:57 CST		0	Thunderstorm Wind (MG 60 kt)
	04/10/21 05:59 CST		0	Source: Emergency Manager

Recorded by weather flow site XGLF.

**The active Spring storm season continued with another round of severe storms Friday night into Saturday. A strong storm system moved across the area. Ahead of this system, a very moist and unstable airmass developed, setting the stage for widespread severe storm development. Very cold temperatures in the mid levels of the atmosphere allowing very large hail to develop, including the largest hail stone ever recorded in Baldwin County. Along with the very large hail, damaging winds were also widespread.**

---

### MOBILE COUNTY --- 2.4 SSE THEODORE IDLE HOUR A [30.55, -88.25], 2.6 WNW GRAND BAY [30.49, -88.39], 3.5 S GRAND BAY [30.42, -88.35], 2.2 SSE BAYOU LA BATRE ARPT [30.42, -88.20]

	04/15/21 06:55 CST		0	Flash Flood (due to Heavy Rain)

<b>COVINGTON COUNTY --- 0.9 SW ANDALUSIA OPP ARPT [31.31, -86.39]</b>				
	04/24/21 18:33 CST	0		Thunderstorm Wind (MG 50 kt)
	04/24/21 18:33 CST	0		Source: ASOS

K79J recorded a 50 knot, 58 mph, thunderstorm wind gust.

**A two part severe weather outbreak impacted the northern Gulf Coast. An early morning squall line brought wind damage to numerous locations. The second round of severe storms in the afternoon and early evening resulted in very large hail across portions of inland southwest and south central AL, some of which reached baseball size. Additional wind damage occurred as well. A few instances of flash flooding were also reported.**
