

Storm Data and Unusual Weather Phenomena - October 2024

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ALABAMA, Central				

(AL-Z031) GREENE, (AL-Z032) HALE, (AL-Z033) PERRY, (AL-Z039) MARENGO

10/24/24 00:00 CST	0	Drought
10/31/24 23:59 CST	0	

A near-total absence of rainfall during much of October again exacerbated drought conditions that had previously improved in September. Areas of southwestern Central Alabama saw drought level increase to Severe (D2) by the last week of October, which persisted into November.

ALABAMA, North

(AL-Z001) LAUDERDALE, (AL-Z005) LIMESTONE

10/01/24 00:00 CST	0	Drought
10/31/24 23:59 CST	0	

D2 Drought Conditions continue across portions of the area as we head into October. Thought some areas are slightly adjusted thanks to the rainfall received on Halloween night, lingering dry conditions persist across portion of North Central Alabama and portions of Southern Middle Tennessee.

(AL-Z007) MORGAN, (AL-Z008) MARSHALL, (AL-Z009) JACKSON

10/29/24 00:00 CST	0	Drought
10/31/24 23:59 CST	0	

In addition to Lauderdale and Limestone Counties, D2 Conditions have spread into Morgan, Marshall, and Jackson Counties in Northern Alabama through the end of October.
