

# The Great Colorado Snowstorm December 1-5, 1913

Jessica R. Smith  
Former Hollings Student at  
National Weather Service  
Denver/Boulder Office

# Key Questions

- \* What happened in the atmosphere that week?
- \* Why did it happen?
- \* What is important about this particular storm?
- \* What were the impacts?
- \* Could it happen again?

# Top 10 Snowstorms in Denver 1882-Present

# 1913 At a Glance

- \* Winter started early; first snowfall occurred September 11.
- \* October continued the trend, and was also quite cold.
- \* November saw warmer than average temperatures.
- \* Concern was developing for the lack of moisture; not much snow, only a little rain.

November

December

# Forecasting the Storm

- \* Meteorologists relied on surface maps to predict where the storm would travel (upper level maps of the atmosphere didn't exist).
- \* Many forecasts for the first week of December were of “mixed accuracy.”
- \* End of the week storm was not foreseen.

## ABOUT THE CITY

Harry Wood arrived today from Salt Lake City.

Amos Bourquin returned yesterday from Colorado Springs where he enjoyed Thanksgiving with his family.

The 7-year-old boy of Mr. and Mrs. Costello was quite badly injured Saturday by falling off a pile of logs at the Koley sawmill.

Mr. and Mrs. James Morrison are now comfortably located in the cottage formerly occupied by Mrs. Bastian, East Hopkins avenue.

Mrs. Regina Cohn boarded the out-of-town Midland last evening for her home at Denver, after a pleasant week's visit with her friend Miss Dorothy Koch.

Jeremiah Gerhart came up on this morning's Midland to attend the December meeting of the board of county commissioners now in session.

Miss Alice Scanlon was an arrival on the Midland yesterday from Norrie where she has been visiting her parents the past week.

## WEATHER REPORT

Snow tonight and Tuesday.  
Temperature 26, 27.

## METAL QUOTATIONS

Silver ..... \$ .56 1/2  
Lead ..... \$ .41 1/2

Special discount made on all rugs at Rice's great removal sale.

Turkey shoot and raffle Sunday, December 14, 1913, at Axel Bourq's, Woody creek.

Salesmen Wanted--Earn \$100.00 monthly; expenses. Advertise or sell cigars. Woonfern Co., New York City, N. Y.

## ABOUT THE CITY

Miss Phillips arrived today on the Grande from Glenwood.

The Pattee family was released from quarantine today.

Mr. and Mrs. Asa Simpson left last evening for Hotchkiss.

## EDISON TALKING PICTURES AT DREAMLAND THEATRE

The seemingly impossible has at last been accomplished--moving pictures that talk and laugh and shout. Thomas A. Edison, the wizard, has at last made this possible and these wonderful talking pictures will be seen at Dreamland theatre next Wednesday evening and if you don't want to miss one of the scientific wonders of the century, you should be there and hear the pictures talk and act like real live people.

It is so wonderful that one hardly realizes that the figures on the screen are not alive.

Be sure and go. It is an opportunity of a life-time and the management of the Dreamland is to be congratulated upon securing this wonder of the age.

Epworth League Entertainment and Social at the M. E. church, Friday night. Admission 5c.

Best winter drink at Cal Wheeler's

Get your rugs while they are cheap at Rice's removal sale.

Bazaar, tea and dance will be given Saturday, Dec. 6, at Hotel Jerome, by the Bazaar Girls for the Domestic Science department of the A. H. S. Bazaar and tea from 2 to 6, dancing at 9 o'clock p. m.

Torpid liver, constipated bowels and disordered stomach are the causes of these headaches. Take Dr. King's New Life pills you will be surprised how quickly you will get relief. They stimulate the different organs to do their work properly. No better regulator for liver and bowels. Take 25c and invest in a box today. All druggists or by mail H. E. Buckler & Co., Philadelphia and St. Louis.

THINGS for  
THANKSGIVING!  
LIKE CUTLERY &

THE DAY OF THE BIG EATS

Roast your Turkey in a Libby's enameled steel, self-basting Roaster--it saves 20 per cent of any roast and makes the toughest meat tender and nutritious. It also bakes bread most beautifully. We are closing out one style of Roaster to cost--\$1.00. Get one before they are all gone.

L. H. TOMKINS HARDWARE.

Puritan Purity in  
Groceries

PURE groceries in this store mean groceries that are right. Just plain, old time standards of value and quality go here--and nothing else.

Just remember this when you are planning Thanksgiving Dinner for those you love, and whose well being is in your care.

We Have Just the Right Things

for Thanksgiving that will give to your meal the zest and completeness you desire, and make it the success your efforts deserve.

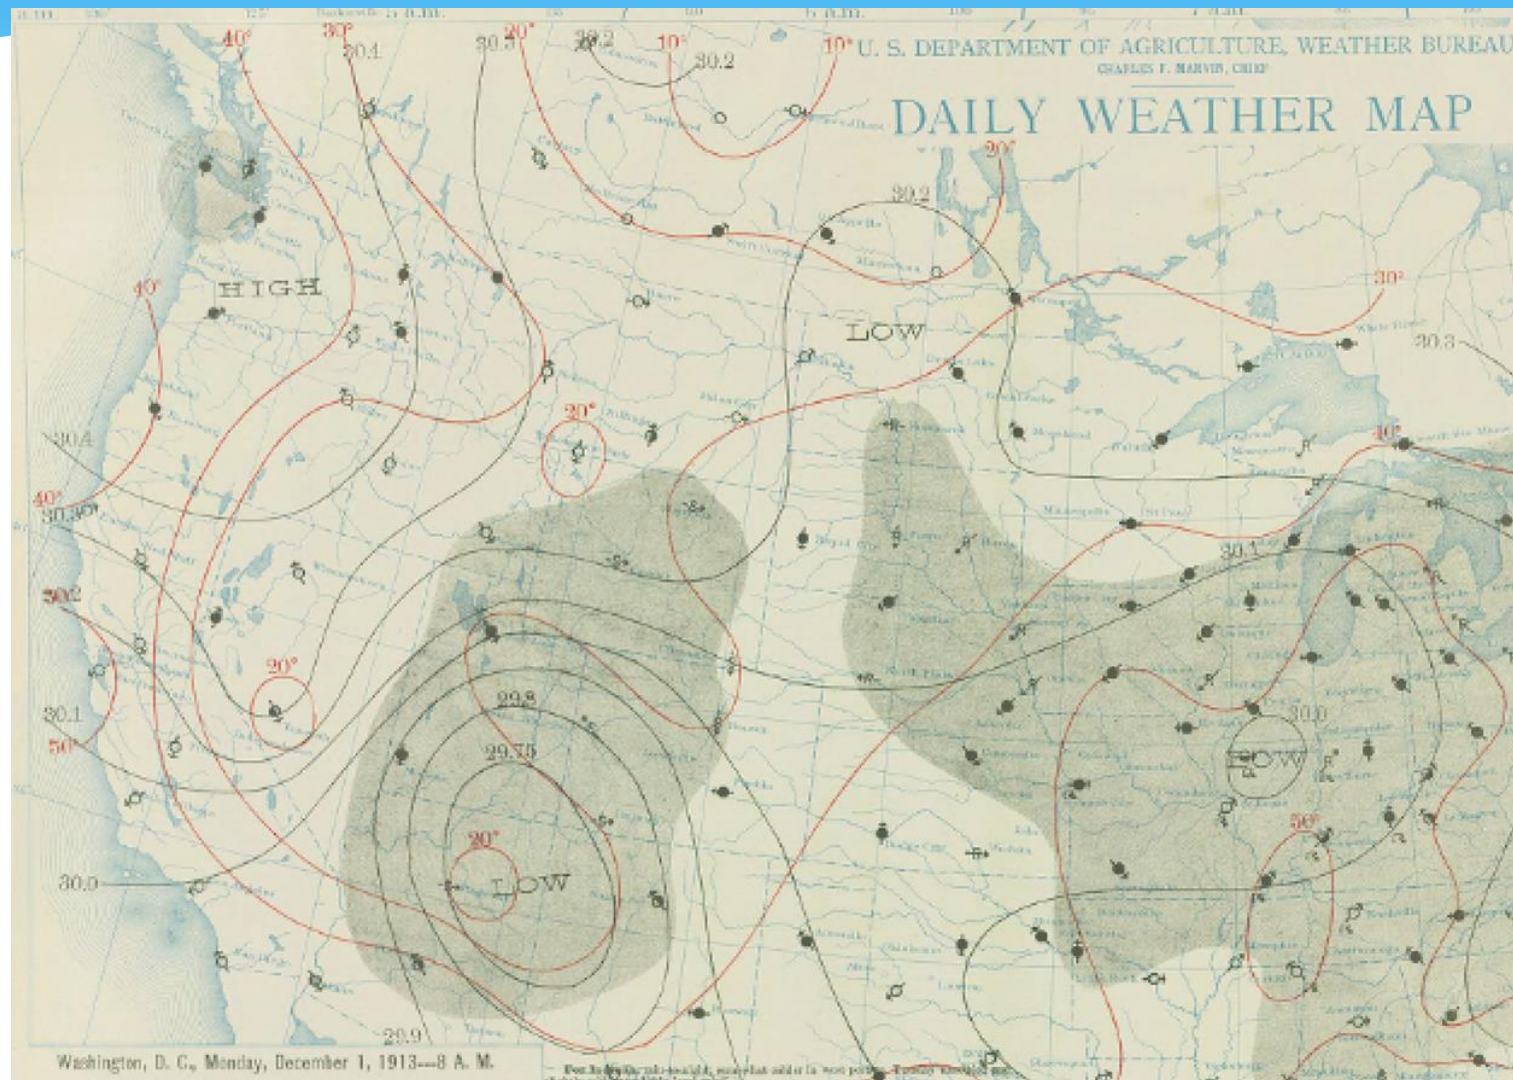

The season's best--at their best--and prices the lowest

Turkey 25c; Geese 25c; Chicken 22c; all prices by the pound. Sweet potatoes, 6c per lb.; Cranberries two quarts for 25c; Celery three bunches for 25c; Parsley 5c per bunch; Sweet Cider 5c per gallon; Fresh Dates the per package; Fresh Pines 12 1/2c per package; Canned Pineapple Cherries, and Figs and Fruit Cakes 30c per pound; Emperor Grapes 50c per basket; Leaf and Head Lettuce and Endive.

# A Unique Pattern for December

- \* Snow in the Denver Metro area is directly related to upslope flow conditions.
- \* The placement of surface high pressure and low pressure during early December 1913 created an extended period of upslope flow.
- \* The pressure pattern in December 1913 also “opened the Gulf” allowing lots of moisture to travel to eastern Colorado... an unusual pattern for December.

# Temperature Differences

- \* Temperatures remained at 32°F through much of the storm (very unusual for December).
- \* Wet sidewalks in photos indicate these higher temperatures.
- \* The temperature helped create heavy wet snow... also unusual for December.

# Snowfall Observations

Denver Weather Bureau Records

December 4, 1913

The snow was very wet and heavy and by noon traffic was considerably impeded. By late evening the blockade was general and street cars, automobiles and other means of conveyance were abandoned. Streets were almost impassable, in many places the snow being drifted to a depth of 4 to 5 feet.

## MILLIONAIRES MINGLE WITH LABORERS TO FREE DENVER FROM CLUTCHES STORM

DENVER, Dec. 10.—Thousands of people today responded to the call issued by Mayor Perkins for help in clearing the streets and sidewalks of snow so that traffic could be resumed, and volunteered to shovel snow in the suburbs to clear the streets to traffic.

In this good work everybody seemed to enter in good spirit and with a vim, the millionaires of the city mingling with the laborers and clearing the streets for blocks and blocks.

The railroad situation here and throughout the remainder of the state is rapidly improving, and most of the trains are now running on normal schedules. The Christmas shopping in the city is now on in full blast and nearly all of the schools are again open after being closed since Friday.

The streets in most sections of the city are now sufficiently cleared to permit the grocers and dairymen to deliver food and milk.

## MELTING SNOW RE- VEALS MANGLED BODY IN DENVER

DENVER, Dec. 9.—The melting of the snow here today caused the revealing of a severed hand, which was protruding from the snow this morning. This led to an investigation and the discovery of a badly mangled body of an unidentified man on the Colorado and Southern railroad tracks in the suburbs of the city. The body was terribly mangled and for this reason probably never will be identified.

The 34 persons who have died in the city recently are still unburied, as it is impossible to reach the cemeteries nor to dig graves. These bodies will be held in the undertaking rooms until the snow is cleared sufficiently to permit of holding funerals.

Traffic in the city is rapidly assuming the normal and it is expected that within a few more days everything will be running as usual.

# Impacts of the Storm

The traffic blockade continued and extended to the railroads. In addition to blockaded traffic conditions great damage was done to flat roofed buildings and in several cases buildings with flat roofs collapsed.

- \* “The traffic [blockade] continued and extended to the railroads. In addition to [blockaded] traffic conditions, great damage was done to flat roofed buildings and in several cases buildings with flat roofs collapsed.”

-Weather Bureau Record

December 5, 1913

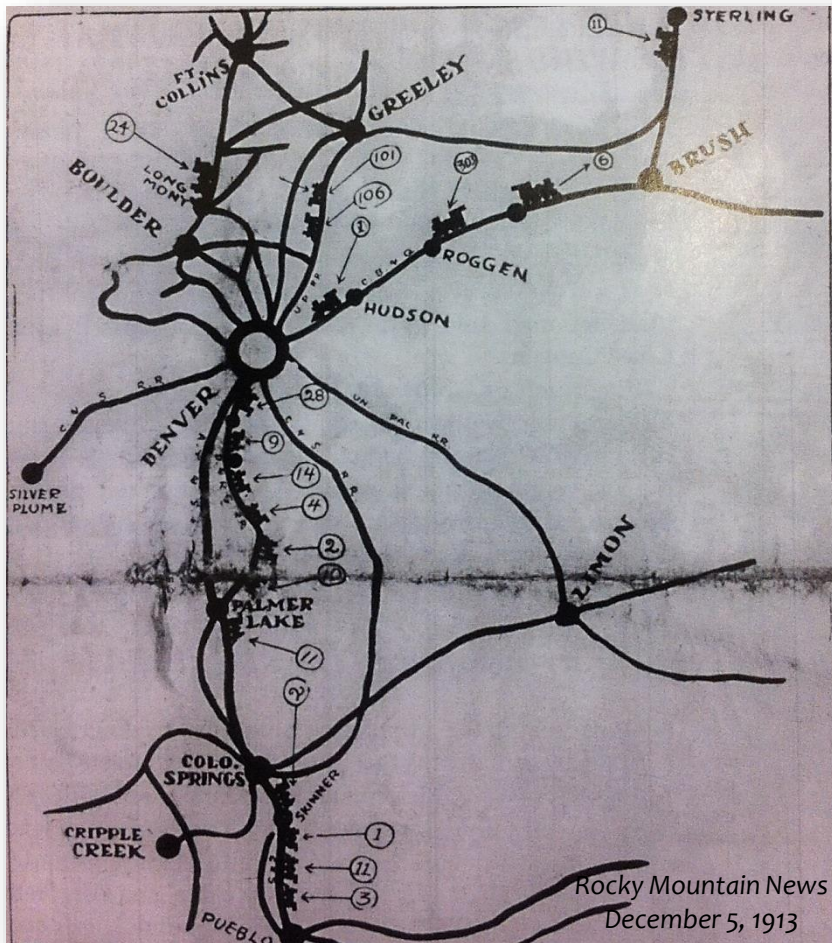

# Streetcar Routes Frozen

Thursday, December 4th at noon, all tramway service through the city was cancelled. Service wasn't restored until one week later. As soon as one track was cleared, another would be tied up and covered with snow drifts.

# Rail Transportation Crippled

- \* Map showing the number of trains stalled heading in and out of Denver published by Rocky Mountain News (Dec 5)

# Automobiles Immobilized

- \* Automobiles had to be hauled to garages by (ironically) teams of horses.

# Employment Abounded

The tramway service hired anyone who was able-bodied to help clear the routes. This started out on Thursday with 780 men, but by Friday grew to over 4,000!

10032203

History Colorado Museum

**Tramway Has Jobs  
for Everybody Today**

Anyone may have work today by applying to the Tramway company. Hundreds of men are wanted to shovel snow, and no one who wants to work will be turned away.

Seven hundred and eighty men were employed by the Tramway company yesterday to clear the tracks of snow. Over 200 men found work with the city dump wagons at salaries of \$2.50 a day. Both the Tramway company and Highway Commissioner Sheriff are seeking more men.

By noon today there will be no unemployed men of able body in the city of Denver.
