

**Public Information Statement  
National Weather Service Boston/Norton MA  
958 AM EDT Wed Aug 9 2023**

**...Rainfall Totals for August 7th and 8th 2023...**

The following observations cover the period from the morning of August 7th through the morning of August 9th, however the bulk of the rainfall occurred late on August 7th and on August 8th. This resulted in many locations across northeast Massachusetts into the Metrowest area experiencing flooding. Isolated flooding was also reported in southern Rhode Island and parts of Cape Cod.

The observations are collected from a variety of sources with varying equipment and exposures, and have not been fully quality controlled. Thus not all data listed are considered official.
