

Time Step # 3: 5 pm Saturday, September 3rd

• Services:

- NHC track, watches, *storm surge*, wind forecasts including probabilities & timing
- WPC rainfall forecasts & excessive rainfall outlooks
- NWC Flood Hazard Outlook (FHO)
- NERFC river hydrographs

• Questions to consider:

- 72-84 hours to hurricane landfall, hurricane watch in effect. States – should we begin to reference evacuation zone maps
- Any actions required for the three hurricane barriers (Stamford, CT – Providence/Fox Pt, RI & New Bedford, MA)?
- Are external capabilities being considered, or is contractor support being planned, or engaged for additional capability and support?
