

## Storm Data and Unusual Weather Phenomena - April 2014

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

---

**TEXAS, South**

---

**JIM HOGG COUNTY --- 3.1 SSW HEBBRONVILLE [27.28, -98.70]**

04/04/14 05:52 CST	5K	Thunderstorm Wind (EG 52 kt)
04/04/14 05:55 CST	0	Source: Trained Spotter

Trained spotter reported damage near the intersection of FM3073 and Highway 16, southwest of Hebbronville. Travel trailers, portable buildings and trees were blown over.

**A cold front moved across Deep South Texas during the early morning hours of April 4th. Higher dewpoints and steep mid level lapse rates provided some potential for convection along the front. Shower and thunderstorms developed along the front and a few cells became severe as they were approaching the northern ranchlands of Jim Hogg County. Strong winds were reported to have caused damage to travel trailers, portable buildings, and trees southwest of Hebbronville.**

---

**(TX-Z253) HIDALGO, (TX-Z255) CAMERON**

04/14/14 13:45 CST	6K	Strong Wind (MAX 44 kt)
04/14/14 16:00 CST	0	

**A strong late season cold front swept across the region during the late morning and mid afternoon hours. One to three hours of gusty winds caused minor damage to unfastened, light weight objects, such as lawn furniture, trampolines, trash cans, as well as to a few trees and at traffic signal.**
