

The NWS Burlington in Vermont is offering this online course about ice storms. This will be an advanced course, and is recommended for those who have already taken a Skywarn® Spotter training course. However, registration is free and open to all.

Please register for NWS Burlington Virtual Skywarn® Course on Friday, December 18th from 3:00 PM EST - 4:00 PM EST at:

<https://attendee.gotowebinar.com/register/621908376683315213>

After registering, you will receive a confirmation email containing information about joining the webinar.

We will discuss the following topics:

- Overview of ice storms
- Science overview of freezing rain
- Forecast process of freezing rain
- Case studies of ice storms in northern NY and VT
- Automated ice accretion measurements
- Manual ice accretion measurements

You may contact our SKYWARN™ program leader Robert Haynes at robert.d.haynes@noaa.gov for additional questions or details.
