

MONTHLY REPORT OF HYDROLOGIC CONDITIONS

REPORT FOR:
 MONTH YEAR
 August 2019

TO: Hydrologic Information Center, W/OS31
 NOAA's National Weather Service
 1325 East West Highway
 Silver Spring, MD 20910-3283

SIGNATURE
 /s/ Andrea LaRocca, Meteorologist

DATE
 October 7, 2019

When no flooding occurs, include miscellaneous river conditions below the small box, such as significant rises, record low stages, ice conditions, snow cover, droughts, and hydrologic products issued (NWS Instruction 10-924).

An X inside this box indicates that no flooding occurred within this hydrologic service area.

No flooding was reported during the month of September 2019 across WFO BTV HAS. In addition, no notable weather events occurred with the month largely categorized by near seasonable temperatures area-wide and near normal to below normal precipitation, especially across southern Vermont.

No images were available at this time.

A brief summary of climate information can be found below:

<u>Location</u>	<u>Temperature Departure</u> (degrees)	<u>Precipitation Departure</u> (inches)
Burlington, VT	1.5	0.07
