

October 11, 2015 Strong Winds

After a day of record heat across the region on Saturday October 10, 2015, a strong cold front raced across the region on Sunday October 11, 2015. The strength of the cold front was enough to produce strong gusty winds. Some of the strongest winds were around the Billings area, where multiple reports of wind gusts around 70 mph were reported.

The following is a map and listing of peak wind gusts across southern Montana and northern WY.
