

# Tropical Storm Chantal off SE Coast

July 5, 2025  
8:16 AM

For Central South Carolina and the Central Savannah River Area of Georgia

### OVERVIEW

- Tropical Storm Chantal continues to churn off the Southeast coast.
- The forecast is for Chantal to move into inland SC on Sunday.
- Minimal impacts are expected for the Midlands and CSRA at this time.

<b>TIMING</b>	<ul style="list-style-type: none"><li>▪ Rain showers may move into the Midlands Saturday night and through the day Sunday with some gusty winds expected Saturday and Sunday.</li><li>▪ System should lift north of the area by Monday.</li></ul>
<b>HAZARDS</b>	<ul style="list-style-type: none"><li>▪ No Tropical Hazards are anticipated for the forecast area.</li><li>▪ Lake Wind Advisory in effect from 9a to 8p today for gusty winds over the lakes.</li></ul>
<b>Heavy Rainfall</b>	<ul style="list-style-type: none"><li>▪ Sunday looks to be the best day for any heavier rainfall.</li><li>▪ Significant rainfall is not expected at this time.</li><li>▪ The eastern Midlands and Pee Dee region would be most at risk for any heavier rainfall.</li></ul>
<b>Winds</b>	<ul style="list-style-type: none"><li>▪ Wind gusts expected around 20-30 mph on Saturday area wide.</li><li>▪ Wind gusts as high as 30 to 35 mph possible on Sunday in the far eastern Midlands and Pee Dee region, with 20-30 mph elsewhere.</li></ul>
<b>Tornadoes</b>	<ul style="list-style-type: none"><li>▪ No threat of tornadoes at this time.</li></ul>
<b>FORECAST CHALLENGES</b>	<ul style="list-style-type: none"><li>▪ Uncertainty remains with the track and possible intensity of this system, but confidence is very high that Chantal will NOT strengthen to a hurricane.</li><li>▪ A stronger system could pose more of a threat with direct impacts in wind and rainfall but at this time we expect minimal impacts.</li></ul>
<b>NEXT BRIEFING</b>	<ul style="list-style-type: none"><li>▪ By 7p Saturday.</li></ul>
